## Introduction

---

This is the eighteenth edition of *Tax Rates in Virginia's Cities, Counties, and Selected Towns*—a comprehensive guide to local taxes in Virginia prepared by the University of Virginia's Weldon Cooper Center for Public Service. This study, which is based on information gathered in the summer of 1999, includes all of Virginia's 40 cities and 95 counties and 150 of the state's 191 incorporated towns. The study also provides information from the Virginia Department of Taxation's 1999 legislative summary and its assessment/sales ratio study for the real property tax in 1997. Although the current study is similar to the 1998 edition in appearance, it incorporates a number of refinements in layout and table content. Also, for the first time, the study shows detailed information on the personal applicable to property other than motor vehicles. In the past, we limited coverage to the personal property tax on motor vehicles.

The study is separated into twenty-three sections. The first section contains a summary of local tax changes enacted by the 1999 Session of the General Assembly. Sections 2 through 23 cover specific taxes and service charges. Most of the data came from a detailed questionnaire (see Appendix A for a facsimile of the document) sent to all cities, counties, and towns. Appendix B provides a listing of names and phone numbers of respondents and non-respondents to the questionnaire. Appendix C shows selected web references on state and local fiscal topics. Each year

there is an increase in the number of web sites and an improvement in the quality.

Although this report is comprehensive, a few taxes are not included. Alcohol taxes are too complex to report briefly. The bank franchise tax is not discussed within this study because the tax is uniform among all localities. All the localities that impose the bank franchise tax do so at the maximum rate allowed by statute—80 percent of the state rate of taxation (§§58.1-1208 through 58.1-1210 of the *Code*). The reason for this is §58.1-1213, entitling banks to a credit upon the state franchise tax equal to the total amount of local franchise tax paid. As a result, localities receive 80¢ of each \$1 of possible state bank franchise tax revenue. In addition, this study does not cover the local option sales tax (§§58.1-605, 58.1-606, and 58.1-608), because every city and county imposes it at 1 percent, nor does this study cover the various property taxes imposed on public service corporations. When a tax rate reported in this edition differs from what was reported in the previous edition, there was either a change in the local ordinance, a different response was provided, or an error has been corrected.

In the tables in this study three dots (...) are used to show there was no response and "N/A" is used to indicate "not applicable." The dots are also employed when a respondent left a blank

space. Readers are encouraged to use the phone list in Appendix B to obtain clarification and additional detail.

The following table provides perspective on the relative importance of

the various local tax sources. In FY 1998, the most recent available, the real property tax was the largest source. Also significant were personal property, sales and use, consumer utility, and business license taxes.

### Percentage Distribution of Tax Revenue, Fiscal Year 1998

	Percent of Total Tax Revenue			Grand Total
	Cities	Counties	Towns †	
Real property	44.1	52.1	25.3	48.8
Public service corporation property	2.5	3.3	1.3	3.0
Personal property, general	15.1	20.5	6.9	18.3
Personal property, mobile homes	0.1	0.1	0.1	0.1
Machinery and tools	2.8	2.0	3.9	2.3
Merchants' capital	0.0	0.2	0.0	0.1
Local sales and use	9.9	8.0	9.9	8.7
Consumer utility	7.4	3.9	9.2	5.3
Business license	6.3	4.0	13.3	5.0
Franchise license	0.8	0.4	2.2	0.6
Motor vehicle license	1.4	1.5	3.0	1.5
Bank stock	0.6	0.3	3.4	0.4
Recordation and wills	0.3	0.7	0.0	0.5
Tobacco	1.1	0.1	1.6	0.5
Admission	0.4	0.0	0.0	0.1
Hotel and motel	1.3	0.8	3.4	1.0
Restaurant food	4.9	0.8	15.6	2.5
Coal, oil, and gas	0.0	0.4	0.2	0.3
Emergency telephone service	0.9	0.8	0.6	0.9
Other local taxes	0.0	0.1	0.1	0.1
Total*	100.0	100.0	100.0	100.0

Source: Virginia Auditor of Public Accounts, *Comparative Report of Local Government Revenues and Expenditures, Year Ended June 30, 1998*, Tables B and B-2

\* Excludes penalties and interest on general property taxes that are included in total general property taxes by the Auditor of Public Accounts.

† Limited to the 33 largest towns.

John L. Knapp, Professor and Research Director of the Business and Economics Section, was the project director. The staff consisted of Stephen C. Kulp, Stephen A. Murray, Blue O'Connell, Erik A. Rhodes, and Katherine F.

Wagoner. Stephen Kulp and Blue O'Connell deserve special recognition for handling much of the day-to-day work. Susan E. Wormington of the Co-

per's Center Publications and Communications Division was responsible for the cover design. Albert W. Spengler, who authored this study for a number of years before I took over, did much of the groundwork on the study when it was his responsibility.

Three employees of the Virginia Department of Taxation provided special assistance. Janice Cole, Customer Services, provided information on local

cigarette taxes. Carol Donaldson, Office of Tax Policy, furnished an electronic version of *1999 Legislative Summary* that formed the basis for Section 1 in the study. Mark Vucci, Tax Policy Division reviewed the questionnaire and offered helpful suggestions.

The questionnaire was also reviewed by James Campbell, Director, Virginia Association of Counties, and by Betty Long, Director of Fiscal Policy, Virginia Municipal League. The strong support for this publication by the two local government associations adds to its acceptance as a basic reference on Virginia local taxes.

Thanks are expressed to the many local officials throughout the

Commonwealth who supplied the survey information presented in this study. I thank them for their willingness to provide information and their patience in answering follow-up questions. Response rates of 100 percent for the cities and counties and 79 percent for the towns are impressive.

Please let us hear from you if you have corrections or suggestions for possible changes or additions to future editions.

John L. Knapp

## Section 1

---

### 1999 Legislative Changes Affecting Local Taxation

This section summarizes the major changes in the *Code of Virginia* enacted by the 1999 session of the Virginia General Assembly for those taxes covered in this publication. The summary is taken verbatim from the Virginia Department of Taxation's 1999 *Legislative Summary*. The department's study also includes information on state taxes and new provisions governing tax collection and administration that are not reprinted in this publication. Additional information can be found in the Virginia Association of Counties' 1999 *State Legislation Affecting Counties* and the Virginia Municipal League's 1999 *Legislative Report*.

This section provides a synopsis of enacted legislation. It is for information purposes only. The listing is not a substitute for actual Department of Taxation regulations, state law, or local ordinances.

#### GENERAL PROVISIONS

##### Definition of Treasurer - Amended

Effective Date: March 15, 1999

Code Section Amended: § 58.1-3123

House Bill 1814 (Chapter 90) and House Bill 1841 (Chapter 777) expand the definition of a treasurer for local tax purposes to include town treasurers, town directors of finance, and any other town employee who performs any of the duties of a town treasurer or town director of finance. Many towns have officers or employees who perform very similar functions to city and county treasurers. These bills give the above persons the same powers as city and county treasurers for the purposes of collection of taxes and other charges.

## **Tax Increment Financing for Development - Expanded**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3245.1

House Bill 1877 (Chapter 190) and Senate Bill 1221 (Chapter 162) expand the types of public facilities for which tax increment financing may be used to include real estate devoted to open-space use. Real estate devoted to open-space use is real estate preserved for park or recreational purposes, conservation of land and other natural resources, floodways, historic or scenic purposes or otherwise assisting in the shaping of community development. Tax increment financing allows localities to redevelop blighted areas. This is accomplished by localities issuing debt instruments and making commitments to redevelop specific blighted areas.

## **TANGIBLE PERSONAL PROPERTY TAX**

### **Rate Adjustment - New**

Effective Date: March 17, 1999

Code Section Amended: § 58.1-3523

House Bill 1851 (Chapter 189) changes the formula currently used in determining funding to localities, and tangible personal property tax relief to taxpayers, under the Personal Property Tax Relief Act of 1998. Under this bill, a locality is funded for any loss of local revenue attributable to tangible personal property tax relief, and taxpayers receive tangible personal property tax relief, in accordance with the tangible personal property tax rates in effect in the locality on July 1, 1997 or August 1, 1997, whichever is greater. The prior

formula for determining funding to localities and tangible personal property tax relief to taxpayers was based upon tangible personal property tax rates in effect in a Virginia locality on August 1, 1997.

### **Taxation on Aircraft of Public Service Corporations - Amended**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-2606

House Bill 2092 (Chapter 866) requires the aircraft of public service corporations to be taxed at the same rate as is applicable to other aircraft in the locality. Aircraft, like other tangible personal property owned by public service corporations, is currently taxed at the real estate rate applicable in the respective locality.

### **Production of the Personal Property Tax Book by Electronic Means - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3118

House Bill 1944 (Chapter 52) allows commissioners of the revenue and other local assessing officers to produce the personal property tax book by electronic means in addition to the means currently authorized.

The personal property tax book is a record of all tangible personal property subject to tax in a locality and its corresponding value which is submitted to the treasurer of a locality for purposes of levying the local tangible personal property tax. Currently, commissioners of the revenue can use any microphotographic process for transmitting the personal property tax book to local treasurers.

### **Identifying Vehicles That Qualify for Personal Property Tax Relief - Amended**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3526

House Bill 2312 (Chapter 99) allows commissioners of the revenue to identify vehicles qualifying for relief under the Personal Property Tax Relief Act of 1998 and their value by means other than the use of the certified personal property tax book. While this bill changes the means by which commissioners of the revenue can perform the identification process, the time frame in which this process must be completed by commissioners of the revenue is the same as required under current law.

Current law requires that the identity of qualifying vehicles and their value be reported to treasurers by September 1 or by such later date of extension as granted by the Tax Commissioner. This bill requires that commissioners of the revenue complete the identification process on or before September 1 or by a later date of extension as granted by the Tax Commissioner.

### **Property Classifications - Amended**

Effective Date: July 1, 1999

Code Section Amended § 58.1-3506

Senate Bill 995 (Chapter 289) establishes a separate class of tangible personal property for tax rate purposes consisting of business personal property used in manufacturing, testing, or operating satellites by a business located within a Multicounty Transportation Improvement District. The creation of this separate classification of tangible personal property allows a locality to tax the machinery and tools of satellite manufacturers at a tangible personal property tax rate lower than the rate applicable to its general class of tangible

personal property. This classification exists only until the earlier of June 30, 2009, or the date that a special improvements tax on real property in a Multicounty Transportation Improvement District is no longer levied. This bill also eliminates the separate classification of tangible personal property previously created for machines and tools owned by a commercial air carrier and used in a commercial airline maintenance, repair, and rebuilding facility, with an assessed value of at least \$100,000,000 and located on or contiguous to an airport.

### **Classifications for Boats and Watercraft - New**

Effective Date: July 1, 1999

Code Sections Amended: §§58.1-3506, 58.1-3902 and 58.1-3912

Senate Bill 1134 (Chapter 358) establishes three tangible personal property tax classifications for privately owned pleasure boats and watercraft used for recreational purposes: (1) boats 18 feet or more in length; (2) motorized boats less than eighteen feet; and (3) nonmotorized boats less than eighteen feet.

This bill also requires certain marina owners, who currently must report the boats stored at their marina to a Commissioner of the Revenue, to report such boats in a list divided into these new classifications. Finally, this bill allows treasurers not to send a tax bill if the amount of such bill is for twenty dollars or less.

Under current law, privately owned pleasure boats and watercraft used for recreational purposes only is a separate classification of tangible personal property. A locality may tax this property at a rate lower than the rate applicable to a locality's general class of tangible personal property.

### **Water Well Drilling Equipment - New**

Effective Date: July 1, 1999

Code Sections Amended: §§ 58.1-1101 and 58.1-3507

Senate Bill 1312 (Chapter 396) subjects machinery and tools used by a water well drilling business to the local machinery and tools tax. This reclassification allows localities to tax machinery and tools used in water well drilling businesses at a rate equal to or lower than the rate imposed upon the general class of tangible personal property. Currently, tangible personal property used by a water well drilling business is subject to a locality's tangible personal property tax.

Under this bill, the remaining personal property owned by a water well drilling business (including but not limited to furniture, fixtures, office equipment, and computer equipment) is classified as intangible personal property subject to taxation only by the Commonwealth under the state's intangible personal property tax. The state tax rate on intangible personal property is zero.

This bill equalizes the treatment of property used in water well drilling with that of property used in mining. In other words, the machinery and tools used in both businesses would be subject to the local machinery and tools tax, and other personal property owned by these businesses would be classified as intangible personal property segregated for state taxation only.

### **REAL ESTATE TAX**

#### **Exemptions for Elderly or Disabled Persons in the Town of Lovettsville - Amended**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3211

House Bill 2136 (Chapter 205) permits the Town of Lovettsville to raise, by ordinance, the income and net worth

limitations for elderly and permanently and totally disabled persons to qualify for an exemption from or deferral of real property taxes. Several localities are currently permitted to use a different income and financial worth limitation other than what is generally authorized. The new limitations under this bill are: (1) the greater of \$52,000 or income limits based upon family size for the respective metropolitan statistical area for the total combined income amount; and (2) \$195,000 for the maximum net combined financial worth amount. This bill permits the Town of Lovettsville to use these specific income and net worth limitations as opposed to those generally authorized.

#### **Authorization of Local Governments to Grant Property Tax Exemptions - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3651

House Bill 1679 (Chapter 979) would authorize local governments to grant, by ordinance, exemptions from local real and personal property taxes for selected nonprofit organizations. Such exemptions extend for a period of four years unless renewed by the locality.

Under current law, a two-step process is required for property to be exempt from local real and personal property taxes. First, after finding that the applicant is exempt from taxation pursuant to Internal Revenue Code § 501(c) and considering any other criteria, facts and circumstances which the governing body deems pertinent, a local governing body must adopt a resolution either approving or refusing to support an applicant's request for exemption. Such a resolution is adopted only after a public hearing on the matter.

Secondly, in accordance with the Virginia Constitution, Art. X, § (6)(a)(6), legislation designating the property as exempt must be adopted by a three-

fourths vote of both houses of the General Assembly. Under the Virginia Constitution, the General Assembly is granted the authority to exempt non-profit organizations from local real and personal property taxes. This bill would place that responsibility solely with localities.

#### **Sliding Scale Tax Rate - New**

Effective Date: July 1, 1999

Code Sections Amended: §§ 58.1-3231, 58.1-3234 and 58.1-3237

House Bill 2754 (Chapter 1026) permits localities to establish a sliding scale tax rate which would lower tax rates for real estate devoted to special use and held for longer periods of time. This sliding scale tax rate applies to real estate which is taxed on its agricultural, horticultural, open-space or forest use value and is available only to those taxpayers who enter into a written agreement, subject to a 20 year limit, with the locality under which they promise to use their real estate for such uses for a mutually agreed upon period of time.

The benefits of this sliding scale tax rate are in addition to, and do not change, current law which provides for special assessment of real estate (use value assessment as opposed to fair market value assessment) for real estate devoted to agricultural, horticultural, open-space or forest use. Use value assessment is available to taxpayers if a locality adopts a land-use plan and ordinance providing for use value assessment, but there is no requirement that an owner of real estate enter into a written agreement with the local governing body.

#### **New Building Assessments in Fairfax County - New**

Effective Date: July 1, 1999

Code Sections Amended: § 58.1-3292 and 58.1-3292.1

Senate Bill 776 (Chapter 760) permits any county operating under the urban county executive form of government (currently only Fairfax), by ordinance, to assess new buildings when they are substantially completed or fit for use and occupancy, regardless of the date of completion or fitness. This bill also permits any county operating under the urban county executive form of government to charge a penalty for late payment of tax, on assessments of new buildings substantially completed after November 1, beginning on the later of December 5 or thirty days following the date of billing. Under current law, for such assessments made after September 1, taxpayers have at least three months in which to pay without incurring penalty.

Under this bill, all other localities besides those operating under the urban county executive form of government (currently, Fairfax County) are still prohibited from assessing real estate taxes on new buildings substantially completed or fit for use after October 31 in a calendar year. Additionally, tax-payers in those localities still have at least three months to pay their real estate taxes, without incurring a penalty, on new buildings substantially completed or fit for use after September 1.

#### **Providing Names and Addresses of Property Owners to Relative Property Owners Associations - New**

Effective Date: July 1, 2000

Code Section Amended: § 58.1-3

Senate Bill 1297 (Chapter 973) authorizes a commissioner of revenue to provide to the representative of a condominium unit owners association, property owners association, or real estate cooperative association, or to the owner of property governed by any such association, the names and addresses of parties having a security interest in real property governed by the association.

Commissioners of Revenue may only release this information only upon a written request stating the reason for such request. The reason must be related to matters relating to the association, including but not limited to proposing or opposing changes to governing documents of the association. Any information received is to be used for its stated purpose. Any misuse of this information is a misdemeanor. The Commissioner of Revenue may require any person requesting information about an association to pay the reasonable cost of providing such information.

## **BPOL**

### **Excess Collection of BPOL Tax by Motor Vehicle Dealers - New**

Effective Date: July 1, 1999

Code Section Ammended: § 58.1-3734

House Bill 1930 (Chapter 862) and Senate Bill 1028 (Chapter 957) permit localities to provide, by ordinance, that any motor vehicle dealer who collects excess business license tax from purchasers must return the overpayments to the purchasers within 120 days of discovering the overpayment. These bills provide that any such amounts which are not refunded must be paid to the Commissioner of the Revenue as additional business license tax.

During a three-year period after receipt of such amounts, the commissioner of the revenue or other local assessing officer and the treasurer will refund such amounts as appropriate to purchasers who produce documentation verifying such overpayment. At the expiration of this period, the commissioner of the revenue or other local assessing officer will consider these funds as additional business license tax. The locality may recover from the motor vehicle dealer its costs of mailing, printing, and other reasonably necessary administrative costs related to refunding such amounts to purchasers.

Currently, motor vehicle dealers are allowed to separately state the amount of business license tax applicable to each sale of a motor vehicle and add this tax to the sales price of the motor vehicle. Current law does not address the situation of a dealer who overstates the amount of a BPOL tax applicable to a sale and keeps the difference.

### **Localities May Eliminate BPOL and Merchant s Capital Tax on Merchants - New**

Effective Date: July 1, 1999

Code Sections Amended: § 58.1-3509 and 58.1-3704

House Bill 2062 (Chapter 200) authorizes any locality to exempt or partially exempt a merchant from the local BPOL tax or the merchants capital tax, or both. This bill follows from an amendment to Article X of the Virginia Constitution which was ratified by the voters of Virginia on November 3, 1998 with an effective date of January 1, 1999. The amendment provides that the General Assembly of Virginia may, by general law, authorize a local governing body to exempt merchants from the local merchants capital tax or certain businesses from the local BPOL tax, or both .

### **Out-of-State Contractors Subject to BPOL - New**

Effective Date: July 1, 1999

Code Amended: § 58.1-3715

House Bill 2106 (Chapter 203) subjects to a locality s BPOL license tax or fee any contractor without a definite place of business in the locality when the amount of the business done there by such contractor will exceed \$25,000 for the year. A definite place of business means an office or a location at which occurs a regular and continuous course of dealing for thirty consecutive days or more. In some cases, a contractor's work in a locality will not exceed thirty days for the particular year meaning

that such contractor has not established a definite place of business in the locality.

Under current law, a Virginia contractor without a definite place of business in a locality is still subject to a locality's BPOL tax or fee if the amount of the business done in that locality exceeds \$25,000 for the year. Prior to the passage of this bill, this exception to the definite place of business requirement was not applicable to out-of-state contractors.

## **MISCELLANEOUS TAXES**

### **Admissions Tax**

#### **Exemption for Charitable Events - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3818

Code Section Added: 15.2-1104.1

House Bill 1810 (Chapter 986) allows a municipal corporation or county to adopt an ordinance to exempt from admissions tax charges for attendance at an event when the sole purpose of the event is to raise money for charitable purposes. To qualify for the exemption from the admissions tax, the net proceeds derived from the event must be transferred to a nonprofit charitable entity or entities that are exempt from the retail sales and use tax pursuant to §§ 58.1-609.4 (educational), 58.1-609.7 (medical-related), 58.1-609.8 (civic and community service), 58.1-609.9 (cultural), and 58.1-609.10 (miscellaneous).

### **Use Tax**

#### **Uniform Method of Use Tax Distribution - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-606

Senate Bill 1064 (Chapter 156) requires the Tax Commissioner to develop a uniform method to distribute local use tax revenue. Any significant changes in the method of the local use tax distribution must be phased in over a five-year period. The distribution information is required to be shared with the affected localities prior to implementation of the changes.

Currently, the 1 percent local use tax collected by dealers is distributed monthly to counties and cities based on the destination locality of purchases made by customers in Virginia, as reported by the dealers. When out-of-state dealers are unable to accurately assign a shipment to a particular city or county locality code, the dealers remit the tax to the department and it is distributed proportionately to all localities in Virginia.

### **Meals Tax**

#### **Prohibition on Local Food and Beverage Tax - New**

Effective Date: July 1, 2000

Code Sections Amended: §§ 58.1-3833 and 58.1-3840

House Bill 1601 (Chapter 366) prohibits localities from imposing a local meals and beverage tax on food purchased for human consumption as defined under the federal food stamp program. This definition is broad and includes any food or food product for home consumption, except alcoholic beverages and tobacco, and hot food products ready for immediate consumption.

Under current law, localities may impose a tax on food and beverages sold for human consumption by a restaurant, not to exceed 8.5 percent when added to the general sales and use tax. In addition, counties may impose a local meals and beverage tax on sales of prepared foods ready for human consumption when sold by a grocery store, delicatessen or convenience store.

The food and beverage tax imposed on meals sold by grocery store delicatessens and convenience stores is limited to sales of prepared sandwiches and single-meal platters.

#### **Items Subject to Tax - Amended**

Effective Date: July 1, 2000

Code Section Amended: § 58.1-3840

Senate Bill 968 (Chapter 953) prohibits cities and towns from imposing the local meals and beverage tax on items sold by a grocery store delicatessen or convenience store except prepared sandwiches, beverages prepared on premise, and single-meal platters.

Under current law, localities may impose a tax on food and beverages sold for human consumption by a restaurant, not to exceed 8.5 percent when added to the general sales and use tax. Counties may impose a local meals and beverage tax on sales of prepared foods ready for human consumption when sold by a grocery store delicatessen or convenience store. The food and beverage tax imposed by counties on meals sold by grocery store delicatessens and convenience stores is limited to sales of prepared sandwiches and single-meal platters.

#### **Combined Meals and Transient Occupancy Tax in Rappahannock County - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3842

Senate Bill 778 (Chapter 617) authorizes Rappahannock County (defined in the bill by population brackets) to levy a combined transient occupancy and food and beverage tax on the aggregate charges for rooms and meals in bed and breakfast establishments when such charges are not separately stated. The tax is imposed (1) at a rate not exceeding 4 percent of the total combined charge for occupancy and the food, and (2) only if a food and beverage tax has been approved in a county-wide referendum.

This bill affects only certain facilities in Rappahannock County which provide both transient accommodations and food and beverages. The affected facilities are limited to bed and breakfast establishments. This bill allows (but not requires) such establishments to combine charges for rooms and meals and to apply the transient occupancy and food and beverage taxes to that combined charge at a rate not exceeding 4 percent.

#### **TRANSIENT OCCUPANCY TAX**

##### **Rockbridge County Allowed to Impose Additional Tax - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3819

House Bill 1618 (Chapter 241) and Senate Bill 1050 (Chapter 233) allow any county having a population of no less than 18,000 and no greater than 20,000 (only Rockbridge County) to impose a transient occupancy tax at a rate not to exceed 5 percent of the amount charged for the occupancy of any room or space occupied. The revenues collected from that portion of the tax over the 2 percent rate must be designated and spent solely for tourism, marketing of tourism or initiatives that attract travelers to the locality and generate tourism revenue in the locality. Rockbridge County currently imposes the tax at the maximum 2 percent rate.

##### **Sunset Date for Arlington County s Additional 1/4 percent Tax - Extended**

Effective Date: July 1, 1999

Code Amended: § 58.1-3822

House Bill 1626 (Chapter 242) and Senate Bill 837 (Chapter 228) extend the sunset date for the 1/4 percent additional transient occupancy tax which any county with the county manager plan of government (only Arlington County) may impose. The

sunset date is extended for three years, from December 31, 1999 to December 31, 2002.

**Prince William County Allowed to Impose Additional Tax - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3819

House Bill 2086 (Chapter 253) allows any county which has adopted the County executive form of government and which is contiguous to any county operating under the urban county executive form of government (only Prince William County) to impose a transient occupancy tax not to exceed 5 percent of the amount charged for the occupancy of any room or space occupied. The revenues collected from that portion of the tax over the 2 percent rate must be designated and spent on tourism and tourism initiatives as determined in consultation with the local tourism industry organizations.

**Franklin County Allowed to Impose Additional Tax - New**

Effective Date: July 1, 1999

Code Section Amended: § 58.1-3819

House Bill 2386 (Chapter 260) and Senate Bill 1098 (Chapter 234) allow any county having a population of no less than 34,500 and no greater than 39,560 (only Franklin County and James City County) to impose a transient occupancy tax at a rate not to exceed 5 percent of the amount of the charge for the occupancy of any room or space occupied. The revenues collected from that portion of the tax over the 2 percent rate must be designated and spent for tourism and tourism initiatives as determined in consultation with the local tourism industry organizations. Currently, James City County is already authorized to impose a transient occupancy tax at a rate not to exceed 5 percent of the amount of the charge for the occupancy of any room or space occupied. Therefore, these bills affect only Franklin County.

## Section 2

### Real Property Tax, 1999

---

Localities in Virginia are authorized by the *Code of Virginia*, §§58.1-3200 through 58.1-3389, to levy taxes on real property. There is no upper limit on the tax rate that may be imposed. Also, §58.1-3201 provides that all general reassessments or annual assessments shall be at 100 percent of fair market value.

Section §58.1-3250 requires cities to have a general reassessment of real estate every two years. However, any city which has a total population of 30,000 or less may elect by majority vote of its council to conduct its general reassessments at four-year intervals. In 1999, 17 cities chose to assess every year, 12 every two years, and 11 used a four year interval. Counties are required to have a general reassessment every four years (§58.1-3252). There is an exception for counties with a total population of 50,000 or less. These counties may elect to reassess at either five-year or six-year intervals (§58.1-3252). However, nothing in these sections affects the power of cities and counties to use the annual or biennial assessment method in lieu of general assessments (§58.1-3250). The tally for the frequency of reassessments in the counties is as follows: 11 assess annually, 7 biennially, 23 use a four year cycle, 4 assess every five years, 36 adopt a six year interval, 11 counties assess on a four to six year basis, 2 assess every five to six years, and 1 county opts to assess on a three to four year cycle.

Generally, if these taxes are paid annually, they are due by December 5. If paid semi-annually, they are due by

June 5 and December 5. However, some localities may have different due dates, as provided in §58.1-3916. In addition, any county, city, or town electing to prorate new buildings which are substantially complete prior to November 1 must do so at the time the building becomes substantially complete or fit to live in. Also, any building which has incurred a \$500 or more increase in value due to repairs or additions shall be assessed as if it is new (§58.1-3291).

The 1999 nominal tax rates presented in Table 2.1 are those reported to the Cooper Center by all cities and counties and the 137 respondent towns that levy a real property tax. Also included in the table is information about the frequency of reassessment, the effective date of the most recent reassessment, the tax due dates, whether or not the locality employs a full-time assessor, and whether or not proration is used.

The unweighted mean of the nominal rate for cities is \$1.05 per \$100 of assessed value. The median is \$1.11 and the first and third quartiles are \$0.83 and \$1.23, respectively. The unweighted mean of the nominal rate for counties is \$0.69 per \$100 of assessed value. The median is \$0.65 and the first and third quartiles are \$0.59 and \$0.75, respectively.

The unweighted mean of the nominal rate for all cities and counties is \$0.80. The median is \$0.71 and the first and third quartiles are \$0.61 and \$1.00, respectively.

The unweighted mean of the nominal rate for towns is \$0.19. The median rate is \$0.18 and the first and third quartiles are \$0.11 and \$0.24, respectively. In Virginia, residents of incorporated towns that levy real estate taxes also pay a county real estate tax.

Tax due dates vary among localities. Most cities have semiannual tax due dates with payments required in June and December. Of the 40 cities, 5 require taxes due annually, 29 semiannually, and 6 quarterly. Among the counties, 56 have annual tax due dates, while 39 have semiannual requirements. Of the 137 towns responding to this question, 118 have annual due dates, and 19 require semiannual payments.

Localities vary about prorating taxes. Of the cities, 20 report prorating taxes while 20 do not prorate. Among counties, 45 prorate their taxes while 50 do not. Reports from the towns that answered this question indicate that 28 prorate their taxes while 105 do not.

Effective rates depend upon local assessment techniques and frequency of reassessments. **Table 2.2** shows city and county 1997 average effective true tax rates, computed by the Virginia Department of Taxation in a way that is designed to control for the variance in assessment procedures. Therefore, when comparing tax rates among the localities, the reader may wish to consult both data series (**Tables 2.1** and **2.2**), despite the fact that different years are involved.

The Virginia Department of Taxation's assessment/sales ratio study compares the locally assessed value of property to its actual sales price for a sample of parcels sold in the study year. The resulting ratio, the "assessment/sales ratio," or "median ratio," is then multiplied by the average nominal

tax rate per \$100 to determine an effective true tax rate per \$100. It should also be pointed out that the Virginia Department of Taxation does not use the locally reported nominal tax rate in its computations. Instead, the Virginia Department of Taxation relies on an "average nominal rate," which is calculated by dividing the total real property tax levy by the assessed value of taxable property. In a few cases, this "average nominal rate" may differ from the locally reported nominal rate.

The real property tax rates reported in **Table 2.2** are a more accurate reflection of the variation in tax rates on real property than those in **Table 2.1** because they control for variations in assessment techniques among localities. **Table 2.2** also shows the latest reassessment in effect when the median ratio study was conducted, the number of sales used in the study, the median ratio, and the coefficient of dispersion. The coefficient of dispersion measures how closely the individual ratios of each locality are arrayed around the median assessment/sales ratio. The formula for the coefficient of dispersion (CD) is:

$$CD = 0.5 \frac{Q_3 - Q_1}{\text{Median}}$$

where  $Q_3$  and  $Q_1$  are the third and first quartile, respectively. If there were no dispersion the CD would equal zero.

The unweighted mean of the average effective rate was \$0.96 per \$100 of true value for cities. The median was \$1.00 and the first and third quartiles were \$0.74 and \$1.14, respectively. The unweighted mean of the average effective rate was \$0.60 per \$100 of estimated true value for counties. The median was \$0.57 and the first and third quartiles were \$0.49 and \$0.66, respectively. The unweighted mean for all Virginia cities and counties was \$0.71, the median was \$0.61, and the first and third quartiles were \$0.51 and \$0.87, respectively. The

weighted mean, \$0.95, was higher than Virginia's unweighted mean of \$0.71, reflecting the higher rates of the larger localities.

The following table summarizes the coefficient of dispersion for the various cities and counties from **Table 2.2**

<u>Coeff. of Dispersion</u>	<u>Cities</u>	<u>Counties</u>	<u>Cities &amp; Counties</u>
0 - 4.99	2	0	2
5 - 9.99	16	13	29

## Section 3

### Real Property Tax Relief Plans and Housing Grants for the Elderly and Disabled, 1999

Sections §§58.1-3210 through 58.1-3218 of the *Code of Virginia* provide that localities may adopt an ordinance allowing property tax relief for elderly and disabled persons. The relief may be in the form of either deferral or exemption from taxes, subject to certain statutory restrictions. The applicant for tax relief must be either disabled or not less than 65 years of age and must be the owner of the property for which relief is sought. The property must be the sole dwelling of the applicant. In addition, localities now have the option of exempting or deferring the portion of a person's tax that represents the increase in tax liability since the year the taxpayer reached 65 years of age or became disabled.

The enabling statute also sets gross combined income and net worth limitations. The total combined gross income from all sources, including the income of relatives living in the dwelling, may not exceed \$30,000 during the previous year. Localities may elect to exclude up to the first \$6,500 of income of each relative, except the spouse, from this sum. In addition, up to the first \$7,500 of any income received by the owner as permanent disability compensation may be excluded. The net combined financial worth of the applicant and spouse may not exceed \$100,000.<sup>1</sup>

<sup>1</sup> Any city, county, or town having a 1980 population of more than 500,000 or any city, county,

Further, manufactured homes that are owned by elderly and disabled persons are now included in the allowable property tax exemptions whether or not they are permanently affixed. This net worth excludes the value of the dwelling and one acre of land upon which it is situated. The statute eliminates income limits for a relative or a relative's spouse living with an elderly or disabled person who can no longer care for himself or herself due to a physical or mental condition. This means that to qualify for this eliminated income limit, the owner of the residence must not transfer assets in excess of \$5,000 without adequate consideration within a three year period prior to or after the relative moves into the residence.

Most cities and counties have adopted some form of property tax relief for the elderly. The City of Emporia is the only city without an elderly relief plan. There are 76 counties with elderly relief plans in effect. Of the 154 surveyed towns, 56 reported having an elderly relief plan; in most towns the

---

or town adjacent to such a locality may increase the combined income limitation to \$40,000 and the maximum net worth to \$150,000. In addition, the cities of Manassas, Manassas Park, Chesapeake, Portsmouth, Suffolk, and Virginia Beach, the counties of Chesterfield, Fauquier, Henrico, and Stafford, and the Town of Leesburg may also adopt the higher limitations. Section §58.1-3211 authorized this exemption.

plan is the same as the plan of the county in which the town is located.

The table below indicates the range and median of the combined gross income allowance and combined net worth limitations for those cities, counties and towns responding to the survey. These allowances and limitations are subject to restrictions and exceptions determined by the localities.

	<u>Cities</u>	<u>Counties</u>	<u>Towns</u>
Combined Gross			
Income Allowance:			
Minimum:	\$ 7,500	\$ 5,000	\$ 5,000
Maximum:	40,000	52,000	75,000
Median:	20,000	18,000	15,000
Combined Net			
Worth Limitations:			
Minimum:	15,000	5,000	5,000
Maximum:	150,000	165,000	195,000
Median:	60,000	51,690	50,000

The following table indicates, for those cities, counties, and towns responding to the relevant questions in the survey, how many localities have a tax relief plan that applies to both the elderly and the disabled, the elderly only, or the disabled only. A majority of the localities use an exemption plan whereby an owner is exempt from all or part of the taxes on the dwelling; usually the exemption is based on a sliding scale, with the percentage of the exemption decreasing as the income and/or net worth of the owner increases.

	<u>Elderly &amp; Disabled</u>	<u>Elderly Only</u>	<u>Disabled Only</u>
Cities	35	4	0
Counties	73	3	0
Towns	43	13	0

Only a handful of localities provide tax relief plans for renters. Four cities do so (Alexandria, Charlottesville, Fairfax, and Falls Church). All but one are in Northern Virginia.

**Table 3.1** summarizes the various tax relief plans offered to elderly and disabled property owners in Virginia. The figures under the combined gross income heading reflect, first, the maximum allowable income (including the income of all relatives living with the owner) for an owner to be eligible for relief and, second, the amount of income of each relative, except the spouse, which is exempted from this amount. For example, if the table reads "\$7,500; first \$1,500 exempt," this indicates that the combined income of the owner and all relatives living with him/her may not exceed \$7,500, except that the first \$1,500 income of each relative except the spouse is not included in computing this amount. The combined net worth amount excludes the value of the dwelling and one acre of land upon which it is situated. Most cities, counties, and towns with relief plans make them available both for elderly and disabled residents. If the locality provides relief to only the elderly, it is clearly indicated in the table beneath the locality's name. If not specified, the locality offers relief to both the elderly and the disabled. **Table 3.2** details relief plans for renters.

### Land Use Value Assessments for Agricultural, Horticultural, Forestal, and Open Space Real Estate, 1999

The *Code of Virginia*, §§58.1-3230 through 58.1-3244, allows any locality that has adopted a comprehensive land use plan to enact a local ordinance providing for special assessments of agricultural, horticultural, forestal, and open space real estate. (Also see Article 10, Section 2, of the *Constitution of Virginia*.) For such an ordinance to be effective, the locality's land use plan must have been adopted by June 30 of the year preceding the one in which taxes are first assessed and levied under the special assessment provision. (For localities that have adopted a fiscal year assessment date of July 1, the plan must have been adopted by December 30 of the preceding year.) However, land used in agricultural and forestal production within an agricultural district, a forestal district, or an agricultural and forestal district is eligible for special assessments for land use whether or not a local land use plan or special assessments ordinance has been adopted. Such assessments are intended, as the *Code* states, to "encourage the preservation and proper use of such real estate in order to assure a readily available source of agricultural, horticultural, and forest products and of open spaces within reach of concentrations of population" and to "promote a balanced economy and ameliorate pressures which force the conversion of such real estate to more intensive uses and which are attributable in part to the assessment of such real estate at values incompatible with its use."

#### Agricultural, Horticultural, Forestal, and Open Space Real Estate

The authorizing statute sets forth certain definitions for qualifying property. Real estate devoted to agricultural use includes either land devoted to the bona fide production, for sale, of plants and animals useful to man or land that meets the requirements for payments or other compensation pursuant to a soil conservation program. Real estate devoted to horticultural use is either land devoted to the bona fide production, for sale, of fruits, vegetables, and nursery and floral products, or land that meets the requirements for payments from a soil conservation program. Real estate devoted to forestal use is land devoted to tree growth in such quantity and so spaced as to constitute a forest area. And finally, real estate devoted to open space is real property used to preserve park and recreational areas, conserve land or other natural resources, or preserve floodways and land of historic or scenic value.

Agricultural and horticultural land must consist of a minimum of five acres, while forestal land must consist of a minimum of twenty acres. Open space land must consist of a minimum of five acres. Exceptions include land adjacent to a scenic river, a scenic highway, a Virginia Byway, or public property in the Virginia Outdoors Plan as well as property in any city, county, or town having population density greater than 5,000 per square mile; in those localities

the governing body may adopt a two-acre minimum.

### **Local Authority in Land Use Assessments**

A locality may elect to include any or all of the four classifications of property in the local ordinance. While many localities provide for special assessments on all four types of property, fifteen cities, thirty-seven counties, and twenty-one towns report excluding one or more types of property. Upon the adoption of a land use assessment ordinance, the locality is authorized to direct a general reassessment in the following year.

In order to have their land assessed on the basis of use, property owners must apply to the local assessing officer at least sixty days preceding the tax year for which the special assessment is sought.<sup>1</sup> Localities may also require the owner to submit an application fee.

### **Application Fees**

Application fees vary widely by locality. Most cities charge a flat fee. Fees range from nothing (Alexandria) to \$300 for a first time applicant (Staunton). Of the 16 cities reporting fees, twelve use a flat fee. The remaining cities charge a base fee and an additional allotment per each acre assessed. The counties are almost evenly split in their method for determining fees. Of the 67 counties, 32 report using some variant of a flat rate, while 35 charge a base fee plus an additional allotment per acre. Many towns use the same method for determining application fees as is used by the county in which the town is located. Among the 27 towns reporting, 10 do not impose a fee, 9 charge a base fee

plus an additional amount per acre, and 8 charge a flat rate.

To determine approximately what application fees cost the property owner, a model was developed that assumes a 100 acre parcel. Using the 78 cities and counties that charge application fees, it was determined that the fees range from a minimum of \$10 to a maximum of \$300. The unweighted average charge is \$39, while the median fee is \$20.

### **Valuing Real Estate for Land Use Assessment**

The responsibility for determining which real estate meets the criteria for land use assessment, as set forth by the state, falls to the local assessing officer. This officer may request an opinion, depending on the type of property, from the Director of the Department of Conservation and Recreation, the State Forester, or the Commissioner of Agriculture and Consumer Services. These agency heads are also authorized to provide, either to the commissioner of revenue or to the assessing officer of each locality that has adopted a land use assessment ordinance, a statement of uniform statewide standards to be used in determining the qualifications for each type of property. Further, the State Land Evaluation Advisory Council is required to provide each locality using special assessments with a recommended range of suggested values for each type of property, based on the productive earning power of that particular type of land.

Only those indices of value that relate to agricultural, horticultural, forestal, or open space use may be considered in determining the assessment. Any structure not related to such special use and the real estate upon which the structure is located shall not be included in the special assessment, but must be taxed on the basis used for

---

<sup>1</sup> In the case of a general reassessment, the property owner may submit the application up until thirty days after the notice of an increase in assessment.

assessing other real property in the locality.

### Changes in Use

Land use assessment may remain in effect only as long as the property is used for the purpose for which the special assessment is granted. A change in assessment is based only upon a change in the use of the land. A change in ownership does not bring about a change in assessment unless the new owner changes the use of the land from qualifying to non-qualifying.

If the qualifying land reverts to a non-qualifying use, the property is subject to roll-back taxes. These taxes are equal to the amount by which the tax on the property, had it been assessed on the same basis as other non-qualifying property in the locality, exceeds the tax that was paid on the property under special assessment. This provision is applicable to the five most recent complete tax years prior to the change. Property owners are also held responsible for simple interest at the same rate applicable to delinquent taxes in each locality, pursuant to §58.1-3915 or §58.1-3916 of the *Code of Virginia*. Any change in use must be reported to the commissioner of revenue or other assessing officer within sixty days. Failure to comply subjects the owner to the amount of tax due plus interest and

penalties, to be determined by the local ordinance.

There is also a penalty for any misstatement made in the application for special assessment. In such a case, the owner is liable for all taxes which would have been incurred, had the real estate not been subject to special assessment, together with penalties due on such sum. If the misstatement was made with the intent to defraud the locality, the owner is assessed an additional penalty of 100 percent of the unpaid taxes.

### The Use of Special Assessments

The use of special assessments in Virginia localities has been increasing. In 1973, the first year in which local ordinances could take effect, only four localities—Fauquier, Loudoun, Prince William, and Virginia Beach—had adopted special assessment ordinances. By 1999, however, 114 localities reported land use assessment ordinances in effect (20 cities, 67 counties, and 27 towns). **Table 4.1** presents the information for those 114 localities reporting a land use assessment ordinance in effect for the 1999 tax year. The table includes the effective date of the ordinance, the types of real estate included, and the cost of the application fee. Section 5 will provide details on agricultural and forestal districts in the Commonwealth.

## Section 5

### Agricultural and Forestal Districts, 1999

---

By authorization of the *Code of Virginia*, §§15.2-4300 through 15.2-4314 (Agricultural and Forestal Districts Act) and §§15.2-4400 through 15.2-4407 (Local Agricultural and Forestal Districts Act), allows any local governing body to enact a local ordinance providing for the creation of agricultural and forestal districts. Such districts are intended, as the *Code* states, "to conserve and to encourage the development and improvement of the Commonwealth's agricultural and forestal lands for the production of food and other agricultural and forestal products." The districts also "conserve and protect agricultural and forestal lands as valued natural and ecological resources which provide essential open spaces for clean air sheds, watershed protection, wildlife habitat, as well as for aesthetic purposes."

According to the "Agricultural and Forestal Districts Act," each dis-

trict must have a core of no less than ous parcels. However, districts of local significance created under the "Local Agricultural and Forestal Districts Act" may be as small as 20 acres. Further, the local governing body must review each district within four to ten years after its creation and every four to ten years thereafter. For additional information relating to the creation of the districts, see §15.2-4305 of the *Code*.

#### Land Use Value Assessments and Agricultural and Forestal Districts

Land devoted to agricultural and forestal production within an agricultural and forestal district qualifies for special assessments for land use whether or not a local land use plan or special assessments ordinance has been adopted, provided that the land meets the criteria set forth in §§58.1-3230 et seq. of the *Code* (see also §15.2-4312).

**Table 5.1** presents information for all cities, counties and towns which have agricultural and forestal districts. It includes the district creation date, the acreage of the district(s) and the review period for each district. One city (Staunton), 25 counties, and 4 towns report

having an agricultural and forestal district ordinance in effect for the 1999 tax year. The four localities reporting the most acreage in agricultural and forestal districts are the counties of Fauquier, Accomack, Albemarle, and Loudoun.

**Table 5.1**

### Property Tax Exemptions for Certain Rehabilitated Real Estate and Other Exemptions, 1999

The *Code of Virginia* provides that localities may adopt an ordinance allowing property tax exemption for certain rehabilitated commercial and industrial real estate (§58.1-3221) and residential real estate (§§58.1-3220 and 58.1-3220.1). To be eligible for the exemption, the rehabilitated structure must be at least 15 years old if it is residential property, and 20 years old if it is commercial or industrial property, and must meet other restrictions that the locality may require. Real estate upon which a hotel or motel, no less than 35 years of age, has been substantially renovated may also qualify for a partial exemption. The ordinance, in addition to any other restrictions, may restrict exemptions to real property located within described districts whose boundaries shall be determined by the governing body. Further, exemptions do not apply to residential real estate if a structure that has been rehabilitated through demolition and replacement is a registered Virginia Landmark or is determined by the Department of Conservation and Recreation to contribute to the significance of a registered historic district.

In order to qualify for the partial exemption, multifamily residential units substantially rehabilitated by replacement for multifamily use may not exceed the total square footage of the old by more than 30 percent. The replacement for commercial and industrial use may exceed the total square footage of

the replaced structure by no more than 100 percent and by no more than 110 percent in designated enterprise zones.

The partial exemption from property taxation may be an amount equal to a percentage of the increase in assessed value resulting from the renovation or to an amount up to 50 percent of the cost of the renovation. The Commissioner of Revenue or another local assessing officer determines the assessed value of the structure. The exemption begins on January 1 of the year following completion of the rehabilitation, with a maximum time duration for the exemption of ten years for residential real estate, and fifteen years for commercial and industrial real estate. Localities may opt to shorten the time span, to reduce the amount of exemption in annual steps over the entire period or a portion of the time limitation, or both.

**Table 6.1** contains information about the 27 cities, 10 counties, and 4 responding towns that have adopted a rehabilitation ordinance. The table also includes the minimum age requirement, the exemption schedule, and the percentage increase in assessed value required for exemption.

Any county, city, or town may grant exemption or partial exemption from local taxation on certified pollution control equipment and facilities. Section

58.1-3660 lists the requirements to qualify for this exemption as the following: any property, including real or personal property, equipment, facilities, or devices used primarily to reduce or prevent pollution of the atmosphere and waters of the Commonwealth.

A similar exemption or partial exemption is authorized by §58.1-3661 for certified solar energy equipment, facilities, or devices. These certified items are defined as any property, including real and personal property, equipment, facilities, or devices which collect or use solar energy for water heating, space heating or cooling, or other application which would otherwise require a conventional source of energy, such as petroleum products, natural gas, or electricity.

Generating equipment installed after December 31, 1974, for the pur-

pose of converting from oil or natural gas to coal or to wood, wood bark, wood residue, or to any other alternate energy source for manufacturing, and any cogenerating equipment installed since that date to be used in manufacturing, are classified separately for property taxation. According to §58.1-3662, localities may adopt an ordinance authorizing exemption or partial exemption for generating and cogenerating equipment used for energy conversion. The ordinance becomes effective on January 1 of the year following the year of adoption.

The three exemptions applying to property used for pollution control, solar energy, and energy conservation are summarized in **Table 6.2**. There are 19 cities, 29 counties, and 5 responding towns that report having at least one of the three previously mentioned exemptions.

Note: Unless stated otherwise, exemption is equal to 100 percent of increase in *assessed value* resulting from rehabilitation. Additionally, for all localities listed, allowable percentage increase *in total square footage* for residential real estate is 15 percent; for commercial/industrial real estate, existing footage restrictions follow slash mark.

Key to real estate abbreviations: R: Residential C/I: Commercial and Industrial

N/A Not applicable.

<sup>a</sup> City of Buena Vista has two classes of real estate; Class I- includes structures aged 50-75 years; Class II-all structures over 75 years old.

<sup>b</sup> Applies to South Norfolk section only--census tracts 201, 202, 203, 204.

<sup>c</sup> Structure must have been constructed prior to 1/1/45.

<sup>d</sup> Fredericksburg has 15 percent increase limitation, not 15 percent increase requirement.

## Section 7

### Service Charges on Tax-Exempt Property, 1999

---

Sections §§58.1-3400 through 58.1-3407 of the *Code of Virginia* authorize localities to impose service charge on otherwise tax-exempt property. Several types of property are excluded from this provision, including the land and buildings of churches used exclusively for worship and property used exclusively for non-profit private educational or charitable purposes.

In 1981, the Virginia General Assembly amended the *Code* to restrict the use of the service charge on the value of real estate owned by the Commonwealth to those localities where such property—excluding hospitals, educational institutions, roadway property, or property held for future construction—exceeds 3 percent of the value of all real estate located within the jurisdiction's boundaries. (Under these guidelines, the City of Richmond is the only locality able to impose the service charge.) However, the service charge may still be levied on faculty and staff housing of state educational institutions, regardless of the portion of state-owned property located within the locality.

The service charge is based on the assessed value of the state- or privately-owned real estate and the amount the locality has expended in furnishing police and fire protection,

refuse collection and disposal, and the cost of public school education (applicable only in the case of faculty and staff housing of an educational institution). These expenditures must exclude any federal or state grants specifically designated for these purposes and any assistance provided to localities under Title 14.1, Article 10, Law-Enforcement Expenditures, of the *Code of Virginia*. If such services are not provided to the tax-exempt real estate or are funded by another service charge, the expenditures may not be included in calculations.

The service charge may not exceed 20 percent of the real estate tax rate (or 50 percent in the case of faculty and staff housing). The charge is determined by dividing the expenditures, as defined in the previous paragraph, by the assessed fair market value of all the real estate within the locality (expressed in hundreds of dollars), except real estate owned by the United States government or by any of its instrumentalities.

**Table 7.1** shows that 14 cities and 7 counties impose a service charge. For further information, see the Auditor of Public Accounts, *Comparative Report of Local Government Revenues and Expenditures, Year Ended June 30, 1998, Exhibit B-1, "Payments in Lieu of Taxes from the Commonwealth."*

## Section 8

### Merchants' Capital Taxes, 1999

The *Code of Virginia*, §§58.1-3509 and 58.1-3510, provides that localities may impose a local tax on merchants' capital. Merchants' capital is defined as the inventory of stock on hand, daily rental passenger cars as defined in §58.1-2401, daily rental property, and all other personal property (exempting tangible personal property not for sale as merchandise, which is taxed as tangible personal property), excluding money on hand and on deposit.

According to §58.1-3704 of the *Code*, no locality may impose a merchants' capital tax if it also imposes business, professional, and occupational license (BPOL) tax. A number of localities impose both of these taxes; but these localities exempt merchants from BPOL tax. Also, it should be noted that some towns impose both the merchants' capital and BPOL tax on merchants and therefore are not in accordance with the *Code of Virginia*.

Furthermore, §58.1-3510.1 authorizes localities to levy a tax which cannot exceed 1 percent on the gross proceeds of a person engaged in the short-term rental business as defined in §58.1-3510.

In 1978, the General Assembly enacted legislation (§58.1-3509 of the *Code*) that froze the merchants' capital-tax at the January 1, 1978 level. Localities that had raised their rates and/or assessment ratios after February 1, 1977 were required to roll back their rates on July 1, 1978 to the February 1, 1977 rate and refund any amount in excess. (See

*Virginia, Acts of Assembly, 1978, c. 817, cl. 2, p. 1407.*) While the enabling legislation prohibits localities from raising the merchants' capital tax rates, it does not prohibit localities from lowering the rates if they choose to do so. Thus, a locality may still lower the tax liability of a merchant by changing either the nominal rate, the assessment ratio, or both.

In 1999 the General Assembly authorized localities to exempt merchants from the local merchants capital tax. Localities may now at their discretion exempt merchants from the tax (see Section 1 of this publication for further details).

Also in 1999, the General Assembly enacted §58.1-3983.1 in regard to appeals and rulings of certain local business taxes including those on merchants' capital. The law provided that interested parties shall propose recommendations to address uniform methods of valuation, rate classification, and associated local revenue impacts for local business taxes to the House Finance and Senate Finance Committees by December 15, 1999.

The merchants' capital tax is levied by 50 Virginia counties and 12 of the responding towns. However, none of the commonwealth's cities impose this tax; instead they employ the BPOL tax. **Table 8.1** gives the nominal tax rates for the counties and towns per \$100, the value used for assessment, and the percentage of value.

The unweighted mean of the nominal tax rate for counties is \$2.27 per \$100 of assessed value. The median is \$1.23 and the first and third quartiles are \$0.71 and \$3.50, respectively. The unweighted mean of the nominal tax rate for towns is \$0.66 per \$100 of assessed value. The median is \$0.68, and the first and third quartiles are \$0.25 and \$1.00, respectively.

A majority of the localities that impose merchants' capital tax base assessment of capital on a percentage of the original cost. Of the 62 localities listed in **Table 8.1**, 46 report using the

original cost as a basis for assessment, while the numbers of localities utilizing fair market value and depreciated cost are 9 and 2, respectively.

Information on nominal tax rates of towns that did not respond to the survey can be found in the Virginia Department of Taxation's publication, *Local Tax Rates: Tax Year 1998*. Please note that the rates in the Virginia Department of Taxation's publication are for the 1998 tax year; it is the most recent information available for towns that did not respond to the survey.

## Section 9

---

### Tangible Personal Property Tax, 1999

Cities, counties, and towns may levy a tax on the tangible personal property of businesses and individuals pursuant to the *Code of Virginia*, §§58.1-3500 through 58.1-3521. Included in this category are such items as motor vehicles, business furniture and fixtures, farming equipment, and a variety of motorized vehicles, including boats, recreational vehicles, campers, and trailers. Localities may elect to prorate the taxes on motor vehicles, trailers and boats which have acquired a situs within a locality after the tax day for the balance of the tax year. The proration must be on a monthly basis with a period of more than a half a month counted as a full month and a period of less than half a month not counted. The local ordinance also applies to items that lose their situs after tax day (§58.1-3516).

Under §58.1-3504 of the *Code of Virginia*, localities may elect to exempt household goods and personal effects from taxation; under §58.1-3505 of the *Code*, they may also exempt certain farm animals, products, and machinery. In addition, according to §58.1-3506 of the *Code*, the following categories are segregated as separate classes of tangible personal property under the condition that the tax rate on these items may not exceed that levied on other classifications of tangible personal property: boats or watercraft weighing five tons or more; certain aircraft; antique automobiles; certain heavy construction machinery; certain computer hardware;

privately owned pleasure boats and watercraft used for recreational purposes only; motor vehicles specially equipped to provide transportation for physically handicapped individuals; privately owned vans with a seating capacity for twelve or more used exclusively for a ride-sharing arrangement; motor vehicles owned by a nonprofit organization and used to deliver meals to homebound persons or to provide transportation to senior or handicapped citizens; privately owned camping trailers and motor homes, as defined in §46.2-100 of the *Code*, which are used for recreational purposes only; and motor vehicles owned by members or auxiliary members of a volunteer rescue squad or volunteer fire department. Section §58.1-3506 provides for the segregation of motor vehicles owned or leased by a motor carrier into a separate classification of personal property.

Furthermore, the *Code of Virginia* provides that all vehicles without motor power which are used or designed to be used as manufactured homes are segregated as separate classes of tangible personal property. This is conditional upon the assessment ratio and the tax being the same as those applicable to real property [§58.1-3506, Subdivision A 8, and §58.1-3506, Clause (iii), Subsection B]. In addition, tangible personal property used in research and development of businesses and certain energy conversion equipment used in manufacturing are segregated as separate classes

of tangible personal property. This is conditional upon the assessment ratio and the tax not exceeding that applicable to machinery and tools (§58.1-3506 of the *Code*).

In 1999 the General Assembly enacted §58.1-3983.1 in regard to appeals and rulings of certain local business taxes including those on business tangible personal property. The law provided that interested parties shall propose recommendations to address uniform methods of valuation, rate classification, and associated local revenue impacts for local business taxes to the House Finance and Senate Finance Committees by December 15, 1999.

The most important tangible personal property category is motor vehicles. This tax is often called the “car tax,” even though it covers sports utility vehicles and trucks as well. In an earlier survey for fiscal year 1995, localities were asked to provide the percentage of personal property taxes coming from motor vehicles. The unweighted average percentages for cities, counties, and towns were 70 percent, 77 percent, and 88 percent, respectively (For more information, please refer to *1995 Tax Rates*, Section 9.1).

The Personal Property Tax Relief Act of 1998 eliminates the tangible personal property tax imposed on the first \$20,000 of value on passenger cars, pickup or panel trucks, and motorcycles owned or leased by natural persons and used for non-business purposes. The tax is eliminated over five years with 12.5 percent of the tax eliminated in 1998, 27.5 percent in 1999, 47.5 percent in 2000, 70 percent in 2001, and 100 percent in 2002 and thereafter. The tax on vehicles valued at \$1,000 or less was completely eliminated beginning in 1998.

Vehicle assessed values are based on published market guides. For valuation of automobiles, all localities use the National Automobile Dealers' Association's *Official Used Car Guide* (N.A.D.A.) as their *primary* valuation guide for cars and sport utility vehicles. When a vehicle is not listed in the primary guide, the locality obtains values from some other source. Information on other sources was requested on the questionnaire and will be provided by the Cooper Center on request. All cities and counties in Virginia levy this tax on motor vehicles. These tax rates are reported in **Table 9.1** (automobiles and trucks of less than two tons) and **Table 9.2** (large trucks of two tons and over). **Table 9.3** provides the payment and assessment schedules for personal property tax for motor vehicles.

Any comparison of personal property tax rates across localities is misleading if differences in the source of assessment value are not considered. Thus, the effective tax rates must

be standardized by using a specified make of automobile. An adjusted effective tax rate was calculated for each locality based on the N.A.D.A. retail value of a 1998 Ford Taurus LX four-door sedan with a six-cylinder engine.

Concept	N.A.D.A. Value	Percent of N.A.D.A. Retail Value
Retail value (RV)	15,325	100
Trade-in value (TV)	13,050	85
Loan value (LV)	11,750	77

Source: National Automobile Dealers Association, *Official Used Car Guide* (January 1999).

The adjusted effective tax rate is found by multiplying the nominal tax rate by the percent of retail value and the assessment ratio. For those localities using the retail value and assessing at 100 percent, the nominal and adjusted effective tax rates are the same. As shown in **Table 9.1**, adjusted effective tax rates vary greatly. For cities they range from \$1.39 (Bristol) to \$4.04 (Alexandria). The median for cities is \$2.80. For counties, the adjusted rates range from \$0.17 in Bath to \$3.88 in Fairfax. The median for the counties is \$2.45. The town rates are in addition to county rates. The town rates range from \$0.02 in Clintwood to \$1.73 in Warrenton. The median for the 122 towns that reported imposing the tangible personal property tax on motor vehicles is \$0.46.

**Table 9.1** also provides the assessment value concept, the nominal tax rate, the percent of retail value, the assessment ratio, and information about tax relief for the elderly and the disabled. Data are provided for all cities and counties and the 122 towns that reported imposing the tangible personal property tax on motor vehicles.

The assessment value concept employed varies among localities. The majority of cities (19) use loan value, but 16 use trade-in value, and 5 use retail value. A large majority of counties (56) use loan value. Twenty-one use trade-in

value, and 18 use retail value. Since many towns use the same concept as their respective counties a tally is not shown for them. Most cities and counties assess at 100 percent of whatever value concept they have adopted. Thus, 36 cities use 100 percent while 4 use fractional assessments ranging from 30 to 90 percent. Similarly, the majority of counties (77) assess at 100 percent. The remaining 18 counties use fractional assessments ranging from 20 to 50 percent.

Most cities and counties do not provide special personal property tax relief for the elderly or disabled. Only 5 cities and 7 counties provide relief for the elderly and only 7 cities and 11 counties provide relief for the disabled.

**Table 9.2** gives the pricing guide and the value used, the nominal tax rate and the depreciation schedule, if any, for large trucks, two tons and over. Information on nominal tax rates of towns that did not respond to the survey can be found in the Virginia Department of Taxation's publication, *Local Tax Rates: Tax Year 1998*. The rates in the Virginia Department of Taxation's publication are for the 1998 tax year; this is the most recent information available for towns that did not respond to the Cooper Center survey.

**Table 9.3** provides the personal property tax due date(s), the effective date of assessment, options for payment of personal property tax, and categories of vehicles for which proration is offered. Twenty-seven cities, 78 counties, and 116 towns collect the tax once a year, while 11 cities, 17 counties, and 5 towns collect it semi-annually. The most common due dates for payment of the tax are June 5<sup>th</sup> and December 5<sup>th</sup>. Also, localities predominantly indicated Janu-

ary 1<sup>st</sup> as the effective date of assessment. Of the localities imposing personal property tax on motor vehicles, 15 cities, 24 counties, and 18 towns offer options for the payment of the tax. The most common payment alternative provided by local governments is the option for taxpayers to prepay their balance at any time during the calendar year before the due date. Moreover, 21 cities, 24 counties, and 18 towns offer proration for personal property tax on specific categories of motor vehicles. Though the term motor vehicle applies to all automotive vehicles with rubber tires for use on roadways, many localities use different definitions for the term. For more detailed definitions of the categories for which proration is offered, please contact the individual localities.

**Table 9.4** shows tangible personal property taxes other than the

motor vehicle tax for cities, counties, and 109 reporting towns. The table below summarizes which localities charge each tax. There are a total of fourteen categories, ranging from personal property such as pleasure boats, aircraft, antique vehicles and recreational vehicles; to business property such as tools, computer hardware, generating equipment, R&D property; to farm and livestock categories.

Item	Localities Charging Tax		
	Cities	Counties	Towns
Watercraft > 5 tons	26	65	52
Pleasure boats	37	86	61
Aircraft	18	78	27
Antique vehicles	23	61	43

## Section 10

---

### Machinery and Tools Property Tax, 1999

Under §58.1-3507 of the *Code of Virginia*, certain machinery and tools are segregated for local taxation. According to the *Code*, the classes of machinery and tools that are segregated are those that are used for "manufacturing, mining, processing and reprocessing [excluding food processing], radio or television broadcasting, dairy, and laundry or dry cleaning." The tax rate on machinery and tools may not be higher than that imposed on other classes of tangible personal property.

In 1999 the General Assembly enacted §58.1-3983.1 in regard to appeals and rulings of certain local business taxes including those on machinery and tools. The law provided that interested parties shall propose recommendations to address uniform methods of valuation, rate classification, and associated local revenue impacts for local business taxes to the House Finance and Senate Finance Committees by December 15, 1999.

**Table 10.1** presents the 1999 tax rates on machinery and tools for the 42 cities, 94 counties and 96 towns that reported imposing them. The machinery and tools tax is reported according to the following categories: the basis of assessment, the nominal tax rate per \$100, the assessment ratio, and the effective tax rate (computed by multiplying the nominal tax rate by the assessment ratio). Effective tax rates among localities are only comparable if they use the

same basis of assessment. Most localities assess machinery and tools on the basis of either original cost, fair market value, or book value. Frequently, a sliding scale is used, with the effective tax rate varying according to the age of the property.

The most common basis for assessment for both cities and counties is original cost. Of the 42 cities that impose machinery and tools property tax, 41 use original cost as a basis for assessment. The City of Lexington bases assessment on both original cost and depreciated cost, while the City of Poquoson does not impose the tax. Also, of the 94 counties that impose the tax, 85 base assessment on original cost. Of the remaining counties, 2 base assessment on depreciated cost, 2 on full market value, and 5 on book value. Rappahannock County does not impose the tax. In addition, the basis of assessment is determined by the county for 51 of the 96 towns that reported a machinery and tools property tax. Of those remaining, 32 base their assessment on the original cost, 5 on book value, 4 on fair market value, 2 on depreciated cost, and 2 on a combination of methods.

Because many localities allow for depreciation, the only way all can be compared is to focus on property that is one year old. The unweighted mean of the effective tax rate for cities is \$1.31 per \$100. The median is \$1.00, and the first and third quartiles are \$0.72 and

\$1.67, respectively. The unweighted mean of the effective tax rate for counties is \$1.10 per \$100. The median is \$0.90 and the first and third quartiles are \$0.66 and \$1.37, respectively. The unweighted mean of the effective tax rate for towns is \$0.46 per \$100. The median is \$0.39, and the first and third quartiles are \$0.18 and \$0.60, respectively.

Information on nominal tax rates of towns that did not respond to the survey can be found in the Virginia Department of Taxation's publication, *Local Tax Rates: Tax Year 1998*. Note that the rates in the Virginia Department of Taxation's publication are for the 1998 tax year; this is the most recent information available on towns that did not respond to the survey.

### Utility License Taxes, 1999

Localities in Virginia may impose a local license tax on public service corporations. As authorized by §58.1-3731 of the Code, localities may levy a license tax on a company at a rate not to exceed one-half of 1 percent of the gross receipts of such company accruing from sales to the ultimate consumer in the locality. However, any locality which had, in effect before January 1, 1972, a tax rate exceeding the current statutory ceiling may continue to tax at the previous level but may not raise the rate (See *Virginia, Acts of Assembly, 1972, c. 858*). For telephone companies, long-distance calls are not taxable under this provision.

County utility license taxes do not apply within the limits of an in-

corporated town if the town also imposes the tax. However, if the population of the county is between 14,650 and 14,700, the town's governing body may elect to have the county tax apply within the town limits.

**Table 11.1** presents the license tax rates on electric, telephone, gas, and water utilities for the 39 cities and the 73 counties and 111 towns that reported imposing a utility license tax during the 1999 tax year. Also, the taxes apply only to services provided by the utility company within the locality. (See Section 12 of this report for local taxation of cable television systems)

### Cable Television System Taxes, 1999

The *Code of Virginia*, §15.2-2108, grants local governments the authority to levy a license tax or franchise fee, or to issue certificates of public convenience and necessity to one or more cable television systems. However, in order to issue more than one license, franchise, or certificate of public convenience, the governing body must hold a public hearing to determine if the public welfare will be enhanced by additional awards. The public hearing should take testimony concerning "the economic consideration, the impact on private property rights, the impact on public convenience, the public need and potential benefit," and other factors that may be relevant.

Section §58.1-3818.3 of the Code of Virginia authorizes counties, cities, or towns to levy a video programming excise tax on cable television providers not otherwise subject to local fees or taxes on gross receipts. The rate cannot exceed 5 percent. The code authorizes providers to pass on to end-user subscribers itemized line charges.

This is in accordance with the *United States Code*, title 47, section 542 (section 622 of the Cable Act), that requires that a franchise fee be no more than 5 percent of the cable operator's annual gross revenue. Cable operators are permitted to pass franchise fees through to subscribers. However, the *U.S. Code* states that "any cable operator shall pass through to subscribers the amount of any decrease in a franchise fee."

**Table 12.1** presents the local franchise fees and local business license taxes on cable television companies for the 38 cities, 52 counties, and 126 towns that reported them in effect during the 1999 tax year. Eighteen cities levy a franchise fee of 3 percent, while an equal number impose a fee of 5 percent. Lynchburg is the only city imposing a 4 percent rate. For counties and towns, the franchise fees range from 0.5 percent to 10 percent and 0.01 percent to 5 percent, respectively.

### Utility Consumers' Taxes, 1999

The *Code of Virginia*, §58.1-3812 and 58.1-3814, authorizes localities to impose a tax on the consumers of public utilities. Residential customers of telephone, gas, water, and electric services are not to be taxed at a rate higher than 20 percent of the first \$15 of the monthly bill. Any locality which had in effect before July 1, 1972, a tax rate exceeding the current statutory ceiling may continue to tax at the previous level (See *Virginia, Acts of Assembly, 1972, c.459*). The tax on telephone services may apply only to local services. There is no statutory ceiling on the tax on commercial or industrial consumers, and localities generally levy higher rates on these entities.

Counties are restricted in their authority to levy a utility consumers' tax within the limits of an incorporated town if the town itself also levies such a tax provided the town maintains certain services. Counties with a population over 150,000 may not impose a utility consumers' tax if they also impose a tangible personal property tax on household goods.

If localities wish to change rates for local consumer utility taxes, they must give 120 days notice to providers for such a rate change.

All of the cities, 79 of the counties, and 105 of the reporting towns had a utility consumers' tax in effect during the 1999 tax year. **Table 13.1** shows tax rates for residential, commercial, and industrial users of electric, telephone, gas, and water services.

In general, tax rates for reporting localities are roughly the same. However, the cities of Charlottesville, Covington, and Roanoke, as well as Albemarle and Fairfax counties, impose an above average utility tax. For the cities opting to levy a residential electricity tax, rates range from 6 percent on the first \$15 in Salem to 10 percent on the first \$3,000, plus 4 percent thereafter, in Charlottesville. The commercial/industrial levy ranges from 10 percent on the first \$100 in Poquoson to 10 percent on the first, \$5,000, decreasing thereafter, in Covington. In the counties, the tariff on residential electricity ranges from 10 percent on the first \$10 in Henrico to 8 percent on the first \$50 in Fairfax. The county assessment for commercial/industrial electricity use ranges from 10 percent (\$5.00 maximum) in Bedford to 10 percent on the first \$10,000 in Fairfax.

## Section 14

### 911 Emergency Telephone System Tax and Cellular Phone Tax, 1999

Section §58.1-3813 of the *Code of Virginia* allows any city, county, or town which has established or will establish an enhanced 911 emergency telephone system to impose a special local tax on the consumer of telephone services. No such tax may be imposed on federal, state, or local government agencies. Any such tax imposed under this section shall be utilized solely for the initial capital, installation, and maintenance costs of the emergency telephone system. For the purpose of compensating the telephone utility for accounting and remitting the tax levied by this section, such telephone utility shall be allowed 3 percent of the amount of the tax due. For the City of Bedford, the counties of James City, Lancaster, Mecklenburg, Surry, and York, and the Town of Colonial Beach, the surcharge for a 911 emergency telephone system is the only utility consumers' tax that each locality reported imposing (consumers' utility taxes are covered in section 13).

Section §58.1-3812 authorizes localities to extend the consumer utility tax collection responsibilities to all providers of cellular phone and other mobile telecommunication services.

**Table 14.1** provides the 1999 special tax rates for enhanced 911 emergency telephone service for the 39 cities, 80 counties, and 34 towns that report imposing this tax. The tax ranges from \$0.26 per month in Norton City to \$3.00 per month in King William, Essex, and Cumberland counties.

The second column of **Table 14.1** lists the cellular phone tax rate of each locality. Twenty cities and 19 counties reported imposing some sort of levy in 1999. Ten of the responding towns also reported such a tax. This surcharge amounts to roughly \$3.00 in most localities, but ranges anywhere from \$3.00 to \$30.00.

**Table 14.1**

## Section 15

---

### Business, Professional, and Occupational License Taxes, 1999

Localities are authorized to impose a local license tax on businesses, professions, and occupations operating within their jurisdictions unless they already levy a tax on merchants' capital. This tax, commonly referred to as the BPOL tax, is sanctioned by Sections §§58.1-3700 through 58.1-3735 of the *Code*.

County BPOL taxes do not apply within the limits of an incorporated town unless the town grants the county authority to do so (§58.1-3711). The BPOL tax is used by all of the 40 cities and 45 of the 95 counties. The tax is also widely used by incorporated towns; 118 reported using the BPOL tax. The specific localities that impose the tax are listed in **Table 15.1**.

Most localities charge a fee to all businesses for the issuance of a license. Many of the larger localities have established a license tax threshold, the minimum amount of which depends upon their population. Those businesses whose gross receipts are above the threshold usually pay a tax rate of a certain number of cents per \$100, instead of the license fee. Each business classification, such as retail or contracting, has a specific tax rate which cannot exceed maximums set by the state guidelines. Businesses pay the tax rate for the amount of gross receipts within each classification.

Although new guidelines in January 1997 made administration of the BPOL tax more uniform in terms of due

dates, penalties, interest, appeals, definitions of situs, and distribution of gross receipts, localities have retained some flexibility. Localities may still determine how many separate licenses they issue to a business and whether or not they charge a fee for each business location or only one fee for a business with multiple locations. Some localities charge no fee at all or charge different fees depending on a firm's gross receipts. For example, some have a minimum license tax of \$30. If a business above the threshold were required to pay a tax of \$18 based on its gross receipts, the business would be charged the minimum of \$30 instead. In addition, there are some localities that impose *both* a license fee and a tax rate on businesses above the threshold.

The *Code of Virginia* establishes March 1 as the date before which businesses must apply for a license. This due date must be implemented no later than the license year of 2001. Most of the localities that reported a due date other than March 1 indicated that it will change, either by next year or by 2001.

Several changes have been made to the BPOL tax for 1999. First, the General Assembly has allowed localities to exempt or partially exempt merchants from the local BPOL tax. Second, out-of-state contractors are now subject to the BPOL tax when the amount of business done by the contractor exceeds \$25,000 for the year.

**Table 15.1** shows information from questions 1 through 5 of the survey regarding the due date and license fees and thresholds. **Table 15.2** (questions 6 through 10) shows specific fee amounts and major business classification tax rates for each locality. Question 11 of the survey, on renting real property, was not incorporated into either table. Six cities, 7 counties, and 6 towns reported charging a license fee, or levying a BPOL tax, on businesses renting real property.<sup>a</sup>

An overview of the general practices of Virginia localities as a whole is shown in the text table. It shows the median license fees and median gross receipts tax rate for cities, counties, and towns. The median figures were calculated using the lowest fee amount given (if a locality reported different fees due to differences in total gross receipts). The calculation uses the highest tax rate which would be charged on businesses in the gross receipts range just above the threshold since rates tend to decrease with increasing gross receipts. If different rates are applied within a business category, such as different rates for financial and professional services, the average of the rates within that category was used

	<u>Cities</u>	<u>Counties</u>	<u>Towns</u>
License fee

No. of localities	13	16	33
Gross receipts tax rate			
Contracting			
Median	\$ 0.16	\$ 0.11	\$ 0.12
No. of localities	40	41	109
Retail			

<sup>a</sup> Cities of Alexandria, Fairfax, Falls Church, Fredricksburg, Norton, and Portsmouth. Counties of Albemarle, Arlington, Augusta, Fairfax, King George, Loudoun, and Nelson. Towns of Bridgewater, Cedar Bluff, Clover, Dayton, Shenandoah, and Vienna.

Median	\$ 0.20	\$ 0.15	\$ 0.14
No. of localities	40	38	113
Repair, pers. & bus.			
Median	\$ 0.36	\$ 0.20	\$ 0.18
No. of localities	40	39	112
Fin., real est. & prof.			
Median	\$ 0.58	\$ 0.32	\$ 0.23
No. of localities	40	38	110
Wholesale (purchases)			
Median	\$ 0.12	\$ 0.05	\$ 0.05
No. of localities	34	36	105

For localities that base wholesalers' tax rates on gross receipts, rather than on purchases of goods for sale, the rate was multiplied by 1.25, based on the assumption that purchases are 80 percent of gross receipts.<sup>b</sup> Only the localities that reported a fee or a tax rate in a particular category were included in the calculation of the median.

The median for the license fee, which is generally imposed only upon businesses below the gross receipts tax threshold, is \$30 for the cities, the counties, and the towns. Many localities with no tax threshold charge a minimum tax, for example, \$30. In such a case, a license fee is not charged, but most businesses would pay at least \$30 in the form of a minimum tax.

The median tax rates for the cities match the maximum rates permitted by the state—\$0.16 per \$100 of gross receipts for contracting; \$0.20 for retail; \$0.36 for repair, personal, and business services; and \$0.58 for financial, real estate, and professional services. Although some individual counties and towns may charge the

<sup>b</sup> For example, assuming purchases are 80 percent of gross receipts, then a firm with \$100,000 of purchases would have gross receipts of \$125,000. A \$.04 per \$100 tax on purchases would yield \$40. A \$0.04 tax per \$100 on gross receipts would yield \$50, an amount 1.25 times greater.

maximum rate within a category, the median figures are less than those of the cities, with the counties' rates in three categories slightly higher than the towns' rates.

The median rate on wholesalers for cities, \$0.12 is well above the state maximum of \$0.05 per \$100 of purchases. Presumably, many cities operate under grandfather clauses that allow them to impose higher rates. The median rate on wholesalers in both counties and towns is \$0.05, the maximum set by the state.

**Table 15.3** lists taxes and 293 fees on peddlers and itinerant merchants. Thirty-two cities, 29 counties and 54 towns reported some form of tax on peddlers. Annual fees charged by cities for retail peddling range anywhere from \$25 to \$500. This is true also for taxes on retail itinerant merchants and wholesale peddlers, though some cities charge according to the gross receipts or gross purchases. Annual charges by counties range from \$10 to \$500 while towns charge anywhere from \$2.50 per day to \$500 per year.

... No response provided.

<sup>c</sup> Fairfax County imposes a license fee on businesses with gross receipts between \$10,000-\$100,000: \$10,000-\$50,000 is \$30; \$50,001-\$100,000 is \$50; It imposes a license tax on businesses with gross receipts over \$100,000.

<sup>d</sup> Fauquier County imposes a \$20 fee for all businesses that have less than \$10,000 in gross receipts.

<sup>e</sup> Hanover County only licenses building contractors.

<sup>f</sup> Henrico County does not impose a license fee on any business. It has a minimum tax that businesses must pay if its tax

base exceeds the standard deduction of \$100,000.

## Section 17

---

### Excise Taxes on Meals, Transient Occupancy, Cigarettes, Tobacco, Admissions, and Motor Fuels, 1999

Among the many local taxes levied by Virginia's localities are five excise sales taxes on meals, transient occupancy, cigarettes, admissions, and motor fuels. **Table 17.1** provides a detailed list of rates for these taxes for the 40 cities, 54 counties, and 84 towns reporting such taxes in effect during the 1999 fiscal year.

#### Meals Tax and Transient Occupancy Tax

The meals tax and the transient occupancy tax (or lodging tax) are a flat percentage imposed on the price of a meal, or on the charge for the occupancy of any room or space in hotels, motels, boarding houses, travel campgrounds, and other facilities providing lodging for less than thirty days. The authority to levy these taxes varies greatly among jurisdictions. According to §58.1-3819 of the *Code of Virginia*, counties may levy a transient occupancy tax with a maximum tax rate of 2 percent. Counties satisfying conditions described in §58.1-3819 (A) may increase their transient occupancy tax to a maximum of 5 percent. The portion of the tax collections exceeding 2 percent must be used by the county for tourism and tourism related expenses. Under §58.1-3822, counties with the county manager plan of government have the option of levying an additional tax of 0.25 percent of the room charge.<sup>1</sup> Counties may also

levy a meals tax (§58.1-3833), on food and beverages offered for human consumption if the tax is approved in a voter referendum. However, several counties have been exempted from the voter referendum requirement (see §58.1-3833 (B) of the *Code*). Finally the meals tax, when combined with the state general sales and use tax (3.5 percent), and the local general sales and use tax (1.0 percent), must not exceed 8.5 percent.

Furthermore, counties are restricted in their authority to levy the meals and lodging taxes within the limits of an incorporated town unless the town grants the county authority to do so (§58.1-3711). Cities and towns are granted the authority (indirectly) to levy the meals and lodging taxes under the "general taxing powers" found in their charters (§58.1-3840).

The first two columns of Table 17.1 list the rates for the meals tax and the transient occupancy tax, respectively. The median rate for the meal tax is 4.5 percent among cities that responded. The minimum rate is 2.0 percent and the maximum 6.5 percent. The meal tax rate is slightly lower among counties, with the median reported to be 4.0 percent, the minimum 2.0 percent and the maximum 5.0 percent. Among towns that reported having a meal tax, the minimum rate is 1.0 percent, the maximum 5.5 percent, and the median rate is 4.0 percent.

---

<sup>1</sup> The counties of Chesterfield, Henrico, and Hanover may, under § 58.1-3823, impose an additional lodging tax of 4 percent of the charge of the room. This revenue is designated for use in tourism promotion.

The transient occupancy (lodging) tax shows greater variation than the meal tax. The median rate for cities is 5.0 percent, the minimum 2.0 percent, and the maximum 8.0 percent. For counties the extremes also range from 2.0 to 8.0 percent with a median rate of 2.0 percent. The towns that reported having an occupancy tax have a median of 4.0 percent with a minimum rate of 2.0 percent and a maximum of 6.0 percent.

### **Cigarette and Tobacco Taxes**

The state is authorized by Section §58.1-1001 of the state code to levy a tax on cigarettes of 1.25 mills per cigarette (\$0.025 on a pack of twenty). Section §58.1-3830 allows for the local taxation of the sale or use of cigarettes. Cities and towns are authorized to levy the tax only if they had authority to do so prior to January 1, 1977. The right to levy the tax has been granted to only a few counties by general law. Fairfax and Arlington counties may levy the cigarette tax with a maximum rate of 5 cents per pack or the amount levied under state law, whichever is greater (§58.1-3831). No county cigarette tax is applicable within town limits if the town's governing body does not authorize that county to levy the tax. The cigarette tax is a flat fee levied on each package of cigarettes. Unlike the meals and transient occupancy taxes, which are added directly onto the bill at the time of purchase, the cigarette tax is added onto the price per pack before the purchaser buys the cigarettes. In addition, localities which levy a tobacco license tax on wholesalers and/or retailers are also listed in **Table 17.1** next to the cigarette tax. The tobacco license tax is levied either as a flat tax or as a portion of gross receipts. If no schedule is given in the **Table 17.1**, then it should be read as a flat tax. A total of 19 cities levy some sort of tax on cigarettes, while 2 counties and 14 towns report doing so. Taxes ranges from \$0.02 to \$0.375 on a pack.

### **Admissions Tax**

Events to which admissions are charged are classified into five groups by §58.1-3817 of the *Code of Virginia*; they are: 1) those events from which the gross receipts go entirely to charitable purposes, 2) admissions charged for events sponsored by public and private educational institutions, 3) admissions charged for entry into museums, botanical or similar gardens, and zoos, 4) admissions charged for sporting events, and 5) all other admissions. In imposing the admissions tax, localities have the authority to tax each class of admissions with the same or with a different tax rate. A 1999 amendment to §58.1-3818 allows a locality to exempt certain qualified charitable events from admissions tax charges. Four counties (Fairfax, Arlington, Dinwiddie, and Prince George) have been granted permission to levy an admissions tax at a rate not to exceed 10 percent of the amount of charge for admissions (§§58.1-3818 and 58.1-3840). Only two counties in Virginia—Dinwiddie and Roanoke—currently levy the admissions tax. Cities and towns are granted the authority (indirectly) to levy the admissions tax under the "general taxing powers" found in their charters (§58.1-3840). Sixteen cities and one town (Vinton) reported levying the admissions tax

### **Motor Fuels Sales Tax**

Under §58.1-1720, any county or city which is a member of a transportation district with a commuter mass transport system, or in any transportation district subject to §15.1-1357 (B) (6) and which is contiguous to the Northern

Virginia Transportation District may levy a sales tax of 2 percent on the retail price of fuels sold for any other purpose than resale. Furthermore, §58.1-1721 requires that during the first full fiscal year in which the tax is levied, the real estate tax and/or other locally levied taxes must be reduced in an amount that would have been or has been spent by the locality on rail or bus services,

but is instead paid for by the revenues of the sales tax on fuels.

The tax is imposed by few localities. Three cities (Fredericksburg, Ma-

327  
nassas, and Manassas Park), and 4 counties (Fairfax, Loudoun, Prince William, and Stafford) levy the 2 percent tax.

### Taxes on Natural Resources, 1999

Localities are permitted to impose several taxes on natural resources. **Table 18.1** provides tax rates for the 4 cities and 24 counties having such natural resource related taxes in effect during the 1999 tax year.

#### Severance Taxes

Under §§58.1-3712 and 58.1-3712.1, any city or county may levy a license tax on persons engaged in severing coal, gases or oil from the earth. The maximum rate permitted for severing coal and gases is 1 percent of the gross receipts from sales, while the maximum rate permitted for severing oil is one-half of 1 percent from the sale of the severed oil. Cities or counties may impose an additional mineral license tax of 1 percent of the gross receipts from the sale of gases as authorized by §58.1-3713.4. The funds from this additional levy are paid into the general fund of the localities except in the counties of Buchanan, Dickenson, Lee, Russell, Scott, Tazewell, and Wise and the City of Norton, where one-half of the revenues must be paid to the Virginia Coalfield Economic Development Fund. If localities enact these taxes, they cannot tax mineral lands under §58.1-3286. However, they are permitted to impose an additional mineral license tax on oil and gas not to exceed 1 percent of gross receipts.

A coal and gas severance tax is levied by the City of Norton and 9 counties, and an oil severance tax is levied by 7 counties. An additional gas severance tax is collected by 4 counties.

Four cities and 22 counties levy an additional mineral license tax.

#### Taxation of Mineral Lands

Under §58.1-3286 of the *Code of Virginia*, localities are required to "specially and separately assess at the fair market value all mineral lands and the improvements thereon" and enter those assessments separately from other lands. However, if localities choose to adopt §§58.1-3712 and 58.1-3712.1, they may not tax minerals under §58.1-3286. Localities may request technical assistance in assessing mineral lands and minerals from the Virginia Department of Taxation, provided money is available to the department to defray the cost of the assistance (§58.1-3287). Mineral lands are taxed at the same rate as other real estate in the locality.

#### Coal and Gas Road Improvement Tax

Localities are permitted by §58.1-3713 to levy up to an additional 1 percent license tax on the gross receipts of coal and gas companies (i.e., in addition to the severance tax). The amount collected under this tax must be paid into a special fund to be called the Coal and Gas Road Improvement Fund of that particular county or city. At its discretion, a county may elect to improve the roads of cities and towns within its boundaries, provided the municipality gives its consent. One-half of the revenue paid to this fund may be used for the purpose of funding the construction of new

water systems and lines in areas of insufficient natural supplies. Localities are required to develop and ratify an annual funding plan for such projects. Under §58.1-3713.1, 20 percent of the funds collected in Wise County are to be distributed to the City of Norton and the six incorporated towns within the county's boundaries (Appalachia, Big Stone Gap, Coeburn, Pound, Saint Paul, and Wise). The distribution is based on the following formula: a) 25 percent shall be divided among the incorporated towns and city based on the number of registered motor vehicles in each town and the City of Norton, and b) 75 percent shall be divided equally among the towns and the City of Norton.

The Coal and Gas Road Improvement Advisory Committee in

each city and county must develop a plan before July 1 of each year for road improvements for the following fiscal year. For localities that comprise the Virginia Coalfield Economic Development Authority, the receipts from this tax must be distributed as follows: three-fourths for the Coal and Gas Road Improvement Fund and one-fourth to the Virginia Coalfield Economic Development Fund. The purpose of this fund is to enhance the economic base for the seven counties and one city which comprise the Authority. The member communities are Lee, Wise, Scott, Buchanan, Russell, Tazewell, and Dickenson counties and the City of Norton. Eight counties and the City of Norton levy a coal and gas road improvement tax.

## Section 19

### Legal Document Taxes, 1999

---

Section §58.1-3800 of the *Code of Virginia* authorizes the governing body of any city or county to impose a recordation tax in an amount equal to one-third of the state recordation tax. However, no tax shall be levied by local governments when the state recordation tax imposed under the “Virginia Recordation Tax Act” is 50 cents. Currently, the state recordation tax is 15 cents per \$100, or a fraction thereof (§58.1-801). In addition, §§58.1-3805 and 58.1-1718 authorize cities and counties to impose a tax on the probate of every will or grant of administration equal to one-third of the state tax on such probate or grant of administration. Currently, the state tax on wills and administration is 10 cents per \$100 or a fraction of \$100 for estates valued at greater than \$5,000 (§58.1-1712). However, if a city cites tax rates that exceed the maximum of one-third of the state’s current rates, it may be presumed that the tax rates in such locali-

ties fall under a clause in §§58.1-3802 and 58.1-3808, that qualifies the above restrictions, stating, “This article shall not be construed as affecting or repealing any city charter provision.”

**Table 19.1** provides information on the recordation tax and the wills and administration tax for the 34 cities and 77 counties that reported imposing one or both of them. The recordation tax rate for cities ranges from 1.0 cents per \$100 (Williamsburg) to 7.5 cents per \$100 (Bristol), but the overwhelming majority of the cities that charge recordation taxes charge 5.0 cents per \$100 (31 cities). A tax on wills and administration is levied by 18 cities, with 14 of them charging 3.3 cents per \$100. The bulk of counties also impose a recordation tax of 5.0 cents per \$100 (73 of the 77 reporting counties), while 27 of the 32 counties that tax wills and administration documents charge 3.3 cents per \$100.

## Section 20

---

### Refuse and Recycling Collection Charges, 1999

Some Virginia localities levy a refuse collection service fee, while others cover refuse collection costs with general tax revenues or leave refuse collection to private contractors. **Table 20.1** shows information reported on refuse collection by all 40 cities, and by 27 counties and 122 towns. The table contains information on frequency of collection, collection fees, and private contracting.

A majority of cities and counties provide services on a weekly basis. Only the cities of Bedford, Fredericksburg, and Lexington, and the counties of Appomattox and Floyd offer collection more frequently. Of the 122 towns, 95 provide weekly collection. In addition, 30 cities, 11 counties, and 74 towns impose a refuse collection service fee. Also, 10 cities, 7 counties, and 55 towns contract with private firms for refuse collection.

The unweighted mean weekly refuse collection fee for residential service is \$7.72. The mean for commercial/industrial service is \$15.74. For weekly residential collection, the median is \$7.00, and the first and third quartiles are \$5.00 and \$10.00, respectively. For weekly commercial and industrial collection, the median is \$12.00, and the first

and third quartiles are \$6.50 and \$17.00 respectively.

In addition to refuse collection services, a number of localities have instituted recycling programs. These programs have been established and financed in a variety of ways. Usually, a locality either provides the service and finances the collection with a service charge, or contracts with a private firm. Recycling collection charges for those communities that responded to the recycling question are shown in **Table 20.2**

Thirty-five cities, 67 counties, and 80 towns responded to the questions. Of the 35 cities, 17 provided recycling collection and 17 contracted it out. Twenty-eight counties provided services while 35 contracted them out. Of the towns, 17 had their services provided by the county, 26 provided direct services, and 35 contracted them out. For localities that charged a service fee, the amount ranged anywhere from \$1.00 a month to \$79 a year.

When answering the questions, 2 cities, 4 counties, and 1 town provided detail on collection fees for miscellaneous refuse items (**Table 20.3**).

## Section 21

### Water and Sewer Connection Fees and Impact Fees, 1999

The *Code of Virginia* §15.2-2122 authorizes sewer connection fees to finance changes in the sewer system that improve public health. Localities may establish, construct, improve, enlarge, operate, and maintain a sewage disposal system with all that is necessary for the operation of such system. The terms under which the locality can charge a fee are defined in §15.2-2119.

**Table 21.1** provides the water and sewer connection fees for the 36 cities, 45 counties, and 116 towns that impose these fees. Due to the complexity of the schedule of fees for some of the localities, we are unable to show entire schedules in the table. In some cases, we provide a range over which the rates fall or, if this is not possible, we simply denote the fee as "varies." If there is a question about the listing for a locality, please contact the locality directly. (See Appendix B for a listing of respondents' phone numbers.)

**Table 21.2** details the impact fees imposed in 4 cities, 9 counties, and 3 towns. Section §15.2-2319 of the *Code of Virginia* allows Virginia's governing bodies to impose this fee. Any applicable locality may, by ordinance,

assess and impose impact fees on new developments to pay all or part of the cost of reasonable road improvements attributable in substantial part to such development. Cost includes, in addition to all labor, materials, machinery and equipment for construction, (i) acquisition of land, rights-of-way, property rights, easements and interests, including the costs of moving or relocating utilities, (ii) demolition or removal of any structure on land so acquired, including acquisition of land to which such structure may be moved, (iii) survey, engineering, and architectural expenses, (iv) legal, administrative, and other related expenses, and (v) interest charges and other financing costs if impact fees are used for the payment of principal and interest on bonds, notes or other obligations issued by the county, city, or town to finance the road improvements (§15.2-2318).

Section §15.2-2323 specifies that the impact fee must be determined prior to or at the time when the site is approved. The ordinance may specify that the payment of fees may be in one lump sum or through installments at a reasonable rate of interest for a fixed number of years. No impact fee may be

levied upon a developer who, prior to the adoption of the ordinance, has proffered conditions pursuant to §15.2-

364  
2298 or §15.2-2303 for off-site road improvements and such proffered conditions have been accepted by the locality.

### Tourism Promotion Funding, 1999

At the request of the commonwealth's Virginia Tourism Corporation, the Cooper Center included questions about tourism promotion funding in the 1999 tax rates survey. Localities that provided public funds for tourist promotion responded to several questions. Each locality reported the organization to which the funding was appropriated, the legal basis for the aid, the source of the funding, and the dollar amount spent on tourism promotion within the community for the fiscal year ending June 30, 1999.

**Table 22.1** lists the 29 cities, 48 counties, and 47 respondent towns in Virginia that used public funds for tourist promotion in 1999. Fourteen cities, 11 counties, and 10 towns entrusted this funding to their Convention and Visitors Bureau. Thirteen cities, 19 counties, and 27 towns distributed the money to their local chamber of commerce. The

remaining localities cited some other recipient.

Each responding locality reported the basis for its aid. Twenty-three cities cited some informal understanding while the rest referred to a local ordinance. Thirty-four counties based their aid on an informal understanding, 7 on a local ordinance, and 5 on a section in the *Code of Virginia*. All the towns except Abingdon, Bowling Green, Chincoteague, and Scottsville (which have a local ordinance) cited some informal understanding. The sources of tourism funding are classified as general revenue or a special tax. Twenty-two cities, 35 counties, and 39 towns cited the former as their source of funding, while 11 cities, 15 counties, and 9 towns received money through a tax. Please refer to **Table 22.1** for details and dollar amounts spent on tourism in each locality.

### Miscellaneous Fees, 1999

In the 1999 questionnaire that the Cooper Center distributed, local governments were asked to specify any miscellaneous charges or fees that fell outside of the scope of the questions in the survey. The answers are included in **Table 23.1**.

The table provides the responses of the 8 cities, 18 counties, and 16 towns

that impose miscellaneous fees. The table includes the type of fee imposed, the amount of the fee, and the schedule, if any, that applies to fee payment. The miscellaneous fees described in the table include zoning and building permits, utility deposits, boating and fishing licenses, and electrical and plumbing permits.

**Table 23.1**  
**Miscellaneous Fees, 1999**

Locality	Item	Fee
<b>Cities</b>	Note: All cities responded to the survey. Those that answered "not applicable" for all items in this table are excluded.	
Alexandria	Library card	\$1.00 for replacement (1 <sup>st</sup> card free)
	Animal license	\$10; \$2 for spayed/neutered
	Street map	\$1.00

# 1999 TAX RATES IN VIRGINIA'S CITIES, COUNTIES, AND TOWNS QUESTIONNAIRE

LOCALITY:

TAX YEAR: **1999**

INFORMATION FOR LAST YEAR'S TAX RATES (THE 1998 EDITION) WAS  
PREPARED BY:

POSITION:

PHONE:

FAX:

ADDRESS:

EMAIL ADDRESS:

## General Instructions on How to Fill Out This Questionnaire

This questionnaire shows in **bold type**, where space permits, the information your locality supplied to us for the 1998 edition of *Tax Rates* published in December 1998. A few answers that you may have provided have been reformatted so you will need to provide the information again. Please review the information for accuracy and completeness and write in any changes that are effective by the end of calendar year 1999. If a particular tax or fee is not applicable to your locality, please enter N/A (not applicable) in the appropriate space rather than leave a blank space. If we have something wrong, please correct it.

If there are no changes from the 1998 edition, please return the survey anyway and indicate that there are no changes. If your office lacks the information to complete some of the questions, please contact the appropriate office in your local government to obtain the necessary information or tell us who to contact.

Thank you for your cooperation in completing this questionnaire. If you have any questions contact John Knapp at the Weldon Cooper Center for Public Service. Phone: (804) 982 - 5604; FAX : (804) 982 - 5536; E-Mail: knapp@virginia.edu. If possible, please return the questionnaire by June 18.

Please make a copy for your files and return this questionnaire to:

**Business and Economics Section

918 Emmet Street N., Suite 300  
Charlottesville, Virginia 22903 - 4832**

A. Real Estate Taxes

1. General Information

Tax rate/\$100: \_\_\_\_\_ What is (are) the due date(s)? \_\_\_\_\_

If your locality imposes any district levies, please list them below or attach a separate sheet showing purpose, name of district, and rate (e.g., district taxes for sanitation, downtown service, fire/rescue, mosquito control, education, Gypsy Moth, etc.).

Does your locality prorate the real property tax on new buildings as permitted by §58.1-3292 of the *Code of Virginia*?  Yes  No

Does your locality have a full-time assessor on its staff?  Yes  No

How often does your locality conduct a general reassessment? \_\_\_\_\_

The last general reassessment became effective  **January 1st**  **July 1st** of what year? \_\_\_\_\_

Has your local government established a tax incremental financing fund to encourage development in certain areas as permitted by §58.1-3245 through 58.1-3245.5 of the *Code of Virginia* (Acts of Assembly, 1988, c. 776) ?  Yes  No

2. Real Estate Exemption for Rehabilitated Buildings

Residential:

Note: Unless otherwise stated, the residential real estate category includes both single and multi-family units. If this is not true for your locality please note the correct dwelling types.

Minimum age of structure: \_\_\_\_\_ years

Exemption schedule (in years):

Note: Unless otherwise stated, the exemption is equal to 100 percent of the increase in assessed value resulting from the rehabilitation.

Increase in assessed value required: \_\_\_\_\_ % Increase in square footage required: \_\_\_\_\_

Commercial / Industrial:

Minimum age of structure: \_\_\_\_\_ years

Exemption schedule (in years):

Note: Unless otherwise stated, the exemption is equal to 100 percent of the increase in assessed value resulting from the rehabilitation.

Increase in assessed value required: \_\_\_\_\_ % Increase in square footage required: \_\_\_\_\_

A. Real Estate Taxes (Continued)

3. Real Property Tax Relief for the Elderly and Disabled

- Tax relief plan applies to:
- 1. both the elderly and disabled  yes  no  N/A
  - 2. the elderly only  yes  no  N/A
  - 3. the disabled only  yes  no  N/A

Combined Gross Income:

The maximum allowable income for **owners**  
(including the income of all relatives living  
with the owner) is:

\$ \_\_\_\_\_

The maximum allowable income for **renters**:  
(including the income of all relatives living  
with the owner) is:

\$ \_\_\_\_\_

Combined Net Worth:

The combined net worth for **owners**, excluding the value of the dwelling and one acre of land upon which it is situated, is:

The combined net worth for **renters**, excluding the value of the dwelling and one acre of land upon which it is situated, is:

Relief Plan for **Owners** (please specify):

Relief Plan for **Renters** (please specify):

Does your locality provide tax relief in the form of housing grants  
for renters who are: Elderly  Yes  No Disabled  Yes  No

Please specify:

## A. Real Estate Taxes (Continued)

### 4. Use-Value Assessment

Does your locality have Use-Value Assessment?  Yes  No

If "yes" please answer the following:

Effective date of use-value ordinance: \_\_\_\_\_ (month/day/year)

- Types of real estate:
- Agricultural land
  - Open space land
  - Horticultural land
  - Forestal land

Application fee: \$ \_\_\_\_\_

#### Agricultural and Forestal Districts:

Has your locality created agricultural or forestal districts for the tax year 1999?  Yes  No

If your locality indicated that last year it had an ordinance in effect providing for the creation of agricultural and forestal districts, these districts appear below. Please review and correct this information and add any new districts formed since last year.

<u>Name of District</u>	<u>Date Created</u>	<u>Review Period</u>	<u>Acreage</u>
-------------------------	---------------------	----------------------	----------------

A. Real Estate Taxes (Continued)

5. Service Charge on Tax Exempt Property

Under §58.1-3400 through 58.1-3407 of the Code of Virginia localities are permitted to levy a service charge on tax-exempt property in certain limited cases.

Does your locality impose service charges on tax exempt property?  Yes  No

If "yes," what are the service charge rates?

<u>Type of Property</u>	<u>Rate per \$100 of Assessed Value</u>
State-owned:	\$ _____
Privately-owned:	\$ _____

B. Merchants' Capital Tax

Rate/\$100: \_\_\_\_\_

Which value and what percentage of value do you use to assess merchants' capital?

<u>Value</u>	<u>% of Value</u>
<input type="checkbox"/> Original cost	_____
<input type="checkbox"/> Fair market value	_____
<input type="checkbox"/> Depreciated cost (company's book value)	_____
<input type="checkbox"/> Other (please specify) _____	_____

C. Tangible Personal Property Tax

1. General Questions

What is the tangible personal property tax rate per \$100? \$ \_\_\_\_\_

What is (are) the due date(s)? \_\_\_\_\_ (month/day)

What is the effective date of assessment or the tax day pursuant to §58.1-3515 of the Code of Virginia? \_\_\_\_\_ (month/day)

Does your locality offer payment options for paying the tangible personal property tax as permitted by §58.1-3916 of the Code?  Yes  No

Comments: \_\_\_\_\_

Does your locality prorate personal property taxes?  Yes  No

If "no," please explain: \_\_\_\_\_

If "yes," for what categories of personal property do you prorate taxes?

- Boats                                       Campers                       Mobile Homes               Recreational Vehicles               Trailers
- Business Motor Vehicles               Motorcycles               Motor Vehicles               Trucks                                       Other

Does your locality offer tangible personal property tax relief for: Elderly  Yes  No ; Disabled  Yes  No

C. Tangible Personal Property Tax (Continued)

2. Motor Vehicles

a. Please indicate which recognized pricing guide or guides you use to assess motor vehicles:

Automobiles and Trucks under 2 Tons

- NADA Official Used Car Guide
- NADA Official Older Used Car Guide
- Red Book, National Market Reports, Inc.
- Older Car Red Book, National Market Reports, Inc.
- Blue Book, National Used Car Market Report
- Truck Blue Book, National Market Report
- Black Book, Dealer Costs, Inc.
- MacLean Hunter Market Reports
- Department of Motor Vehicles Reports
- Other (please specify) \_\_\_\_\_

Large Trucks 2 Tons and Over

- NADA Official Used Car Guide
- NADA Official Older Used Car Guide
- Red Book, National Market Reports, Inc.
- Older Car Red Book, National Market Reports, Inc.
- Blue Book, National Used Car Market Report
- Truck Blue Book, National Market Report
- Black Book, Dealer Costs, Inc.
- MacLean Hunter Market Reports
- Department of Motor Vehicles Reports
- Other (please specify) \_\_\_\_\_

b. Please indicate value and what percentage you use to assess motor vehicles:

Automobiles and Trucks under 2 Tons

- | <u>Value</u>                                     | <u>% of Value</u> |
|--|-------------------|
| <input type="checkbox"/> Average retail value    | _____             |
| <input type="checkbox"/> Average loan value      | _____             |
| <input type="checkbox"/> Average trade-in value  | _____             |
| <input type="checkbox"/> Average wholesale value | _____             |
| <input type="checkbox"/> Average finance value   | _____             |
| <input type="checkbox"/> Other (please specify)  | _____             |

Large Trucks 2 Tons and Over

- | <u>Value</u>                                     | <u>% of Value</u> |
|--|-------------------|
| <input type="checkbox"/> Average retail value    | _____             |
| <input type="checkbox"/> Average loan value      | _____             |
| <input type="checkbox"/> Average trade-in value  | _____             |
| <input type="checkbox"/> Average wholesale value | _____             |
| <input type="checkbox"/> Average finance value   | _____             |
| <input type="checkbox"/> Other (please specify)  | _____             |

c. If you do not use a pricing guide, or if a motor vehicle is not listed in a pricing guide, then what percentage(s) of original cost do you use to determine the assessed value?

Automobiles and Trucks under 2 Tons

<u>Year</u>	<u>Percentage</u>
-------------	-------------------

Large Trucks 2 Tons and Over

<u>Year</u>	<u>Percentage</u>
-------------	-------------------

d. Are you now using the same pricing guide(s), basis for value, and percentage of value that were in effect on August 1, 1997?  Yes  No

C. Tangible Personal Property Tax (Continued)

3. Other Classifications of Tangible Personal Property (Continued)

<u>Type of Property</u>	<u>Rate per \$100</u>	<u>Basis for Assessment (% of Original Cost)</u>
Livestock	_____	_____
Farm	_____	_____
Household	_____	_____
Boats and watercraft over five tons:	_____	_____
Privately owned pleasure boats and watercraft:	_____	_____

D. Machinery and Tools Tax

1. Source of assessment value:  OC-Original Cost  
 DC-Depreciated Cost (book value, please include a separate schedule)  
 BK-Book Value  
 FMV-Fair Market Value  
 Other-please specify \_\_\_\_\_

2. Nominal tax rate (per \$100): \_\_\_\_\_

3. Assessment ratio (percent) or show schedule, if applicable:

**SECTION I. PROPERTY TAXES (CONTINUED)**

**E. Miscellaneous Property Tax Exemptions**

Does your locality have a property tax exemption program for the following programs, as permitted by the *Code of Virginia*?

- 1. Certified pollution control equipment and facilities (§58.1-3660)  Yes  No
- 2. Certified solar energy equipment facilities or devices (§58.1-3661)  Yes  No
- 3. Generating and co-generating equipment used for energy conservation (§58.1-3662)  Yes  No

**SECTION II. UTILITY TAXES**

**A. Utility Consumers' Taxes**

(If a ceiling is imposed on the amount subject to the tax, please specify next to that tax.)

Note: Do not confuse this consumer tax with utility license taxes imposed on utilities (see next section).

	Residential	Commercial	Industrial
Electric:	_____	_____	_____
Telephone:	_____	_____	_____
Gas:	_____	_____	_____
Water:	_____	_____	_____
Cable TV*	_____	_____	_____

\* If you levy a consumer utility tax on subscribers to cable TV, what section of the state code authorizes you to levy this tax? \_\_\_\_\_

**B. Utility License Taxes**

This is a business license tax on the gross receipts of public service corporations (utility companies) as authorized by §58.1-3731 of the *Code of Virginia*.

Tax Levy on Gross Receipts:

Electric:	_____	Gas:	_____
Telephone:	_____	Water:	_____

**C. Cable Television Franchise Tax (an excise tax on video programming providers -see § 58.1-3818.3).**

Rate on gross receipts: \_\_\_\_\_

## SECTION II. UTILITY TAXES (CONTINUED)

### D. Cellular Phone Tax

Has your locality adopted a cellular phone tax?  Yes  No

If yes, what is the rate?  
\_\_\_\_\_

### E. Emergency 911 Phone Tax

If your locality has an Enhanced 911 Emergency Telephone System or will establish one, does your locality impose a special tax on consumers as provided in §58.1-3813 of the Code of Virginia?

Yes  No      If yes, what is the tax rate? \_\_\_\_\_

## SECTION III. MOTOR VEHICLE LICENSES

Rates should be indicated as either a flat rate, e.g., \$25, or a range such as \$10-\$50, which represents the minimum and the maximum tax by weight.

Private Passenger Automobile

Motorcycle

Trucks Not for Hire (by Weight)

What is the date new decals must be affixed to vehicles? \_\_\_\_\_ (month/day)

Do you provide exempt from the local vehicle license tax for: Elderly  Yes  No; Disabled  Yes  No

## SECTION IV. BUSINESS LICENSE TAXES

A. What is the *filing* due date for the business, professional, and occupational license (BPOL) tax?

\_\_\_\_\_

B. What is the *payment* due date for the BPOL tax? \_\_\_\_\_

C. What type of BPOL payment plan does your locality have?

- Annual       Semiannual       Quarterly       Other

\_\_\_\_\_

D. Check the box that describes how your locality applies the license **fee** allowed under the Code of Virginia §58.1-3703 A. Please be aware of the distinction between a license **fee** and a license **tax** as defined by *BPOL Guidelines* (§3.1.1). Note that beginning July 1, 1998 a locality is not permitted to impose both a license fee and a license tax on a business conducted at a single definite place of business (§ 58.1-3703A).

1.  We do not impose a license fee on any business, however, we have a minimum or flat tax that businesses are required to pay.
2.  We impose a separate license filing fee for each license a business has, even if the separately licensed activities of that business are in the same location.
3.  We impose only one fee per business location, regardless of the number of separate licenses issued to the business at that location.
4.  Other (please explain below):

\_\_\_\_\_  
\_\_\_\_\_

E. If you answered above that your locality does charge a license fee, which businesses does the fee apply?

- All businesses  
 Only to businesses with gross receipts of greater than \_\_\_\_\_  
 Only to businesses with gross receipts of less than \_\_\_\_\_

If the fee amount is determined on a sliding scale that depends on the amount of total gross receipts, please detail the fee schedule below:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

F. Check the box that describes whether your locality has implemented a license *tax* threshold.

- We have not adopted a license tax threshold.
- Our license tax threshold is \_\_\_\_\_.

This means that businesses with gross receipts of the amount stated, or greater, are subject to the tax rate specified for that business's classification (for example, \$0.20 per \$100 for retail sales).

(If you answered in question F that your locality has no established threshold, please skip question G.)

G. For those businesses subject to the tax, does your locality apply a separate gross receipts *tax* threshold to *each* licensed business at *each* location?

- Yes \_\_\_\_\_
- No \_\_\_\_\_
- If "no," please explain: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

H. Contracting

- 1. License *fee* (filing fee) \_\_\_\_\_
- 2. The license *tax* rate is \$ \_\_\_\_\_ per \$100 of gross receipts.
- We have a minimum tax of \$ \_\_\_\_\_ for businesses subject to a tax rate.

**Explain:** \_\_\_\_\_  
 \_\_\_\_\_

I. Retail Sales

- 1. License *fee* (filing fee) \_\_\_\_\_
- 2. The license *tax* rate is \$ \_\_\_\_\_ per \$100 of gross receipts.
- We have a minimum tax of \$ \_\_\_\_\_ for businesses subject to a tax rate.

**Explain:** \_\_\_\_\_  
 \_\_\_\_\_

J. Repair, Personal, and Business Services

- 1. License *fee* (filing fee) \_\_\_\_\_
- 2. The license *tax* rate is \$ \_\_\_\_\_ per \$100 of gross receipts.
- We have a minimum tax of \$ \_\_\_\_\_ for businesses subject to a tax rate.

**Explain:** \_\_\_\_\_  
 \_\_\_\_\_

**SECTION IV. BUSINESS LICENSE TAXES (CONTINUED)**

**K. Financial, Real Estate, and Professional**

- 1. License *fee* (filing fee) \_\_\_\_\_
- 2. The license *tax* rate is \$ \_\_\_\_\_ per \$100 of gross receipts.
- We have a minimum tax of \$ \_\_\_\_\_ for businesses subject to a tax rate.

**Explain:** \_\_\_\_\_

**L. Wholesale**

- 1. License *fee* (filing fee) \_\_\_\_\_
- 2. The license *tax* rate is \$ \_\_\_\_\_ per \$100 of (check appropriate boxes):
  - purchases of goods for sale
  - gross receipts
  - We have a minimum tax of \$ \_\_\_\_\_ for businesses subject to a tax rate.

**Explain:** \_\_\_\_\_

M. If the tax rate is applied to gross receipts or at a rate in excess of \$0.05 per \$100 of *purchases*, what year did the local ordinance giving you this authority take effect? \_\_\_\_\_

**Explain:** \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

N. Do you charge a license fee or levy a BPOL tax on any business renting real property, as the owner of such property, other than hotels, motels, motor lodges, auto courts, tourist courts, travel trailer parks, lodging houses, rooming houses, and boarding houses?

Yes  No If yes, what year did the ordinance giving you this authority take effect? \_\_\_\_\_

**Explain:** \_\_\_\_\_  
\_\_\_\_\_

O. What is your tax/fee on the following:

- 1. Retail peddlers: \$ \_\_\_\_\_
- 2. Retail itinerant merchants: \$ \_\_\_\_\_
- 3. Wholesale peddlers and itinerant merchants: \$ \_\_\_\_\_

SECTION V. OTHER LOCAL TAXES

A. Local Excise Sales Taxes

- 1. Restaurant food tax (meals tax, §58.1-3833, 58.1-3840) Rate: \_\_\_\_\_
- 2. Transient occupancy tax (hotels and motels, §58.1-3819 to 58.1-3822, 58.1-3840) Rate: \_\_\_\_\_
- 3. Admissions tax (§58.1-3818, 58.1-3840) Rate: \_\_\_\_\_
- 4. Tax on fuel in certain transportation districts (§58.1-1720) Rate: \_\_\_\_\_

B. Cigarette Tax §58.1-3830

<u>No. of cigarettes in Pack:</u>	<u>Tax</u>
20	_____
25	_____
30	_____

Information provided last year: \_\_\_\_\_

C. Natural Resource Related Taxes

- 1. Oil severance tax (§58.1-3712.1) Rate: \_\_\_\_\_
- 2. Coal severance tax (§58.1-3712) Rate: \_\_\_\_\_
- 3. Coal and gas road improvement tax (§58.1-3713) Rate: \_\_\_\_\_
- 4. Additional gas severance tax (§58.1-3713.4) Rate: \_\_\_\_\_
- 5. Mineral tax (§58.1-3286) Rate: \_\_\_\_\_

D. Taxes on Legal Documents

- 1. Recordation tax (§58.1-3800) Rate: \_\_\_\_\_
- 2. Tax on wills and administration (§58.1-3805) Rate: \_\_\_\_\_

E. Other Miscellaneous Taxes

Please specify any other miscellaneous taxes imposed by your locality.

- 1. \_\_\_\_\_ Rate: \_\_\_\_\_
- 2. \_\_\_\_\_ Rate: \_\_\_\_\_
- 3. \_\_\_\_\_ Rate: \_\_\_\_\_

\_\_\_\_\_

## SECTION VI. USER CHARGES AND OTHER FEES

---

### A. Refuse Collection Charges

1. Does your locality provide refuse collection:
  - to residential customers?  Yes  No
  - to commercial and industrial customers?  Yes  No
2. If yes, what is the frequency of collection:
  - for residential customers? \_\_\_\_\_
  - for commercial and industrial customers? \_\_\_\_\_
3. If yes, what is the:
  - residential refuse collection fee, if any? \_\_\_\_\_
  - commercial & industrial refuse collection fee, if any? \_\_\_\_\_
4. Does your locality contract with one or more private firms to provide refuse collection?  Yes  No
5. If your locality imposes tipping fees, please show the charge(s):  
\_\_\_\_\_

### B. Recycling Collection Charges

1. Has your locality instituted a recycling program?  Yes  No
2. If yes, does your locality:
  - Provide the recycling service directly or contracted? \_\_\_\_\_
  - Charge a fee for the service?  Yes  No    If yes, how much? \_\_\_\_\_

### C. Other User Fees

1. Water connection and meter    Fee: \_\_\_\_\_    Sewer connection fee: \_\_\_\_\_
2. Impact fee on new developments for road improvements (§ 15.2 - 2319):    Fee: \_\_\_\_\_
3. Miscellaneous fees and charges
 

Please specify any other miscellaneous charges or fees imposed by your locality. ( For example, library card fee, animal license fee, map copy fee, etc.)

  - a. \_\_\_\_\_    Fee: \_\_\_\_\_
  - b. \_\_\_\_\_    Fee: \_\_\_\_\_
  - c. \_\_\_\_\_    Fee: \_\_\_\_\_

SECTION VII. SPECIAL SECTION ON FUNDING FOR TOURISM PROMOTION

The following questions have been developed in cooperation with the Virginia Tourism Corporation:

A. Does your locality provide public funds for tourism promotion?

- Yes
- No (If "No", please skip to the following page.)

The following questions apply to localities providing public funds for tourism promotion:

B. The funds are provided to:

- a local chamber of commerce.
- a local convention and visitors' bureau.
- other (please specify):

C. What is the basis for the aid?

- Specified in the Code of Virginia
- Local ordinance (Please provide a copy.)
- Informal understanding or practice

Please explain:

D. What is the source of funds for the aid?

- General revenues
- Earmarked special taxes (see below):

Kind of tax (e.g., lodging, meals, etc.): \_\_\_\_\_

Portion of tax allocated for tourism promotion: \_\_\_\_\_

E. How much funding was provided for tourism promotion for the fiscal year ending June 30, 1999?  
(If figures for fiscal year 1999 are not available, please provide information for the fiscal year ending June 30, 1998.)

\$ \_\_\_\_\_  Fiscal year ending June 30, 1999  
 Fiscal year ending June 30, 1998

THANK YOU
